GOVERNOR DENIES PARDON TO MOONEY

INFLATION FOR BONUS FLAYED BY C. G. DAWES

NEW-MONEY PLANS WOULD PROMOTE RUIN, CLAIMS

BY WILLIAM L. BEALE
(Ass'd Press Staff Writer)

Washington, April 21 (AP)—Bristling with a militant faith in American business, Charles G. Dawes furiously assailed new-money plans for cashing the soldiers bonus today and denounced them as promoting "complete economic ruin."

For nearly two hours he lectured, threatened and pleaded with the house ways and means committee in a picturesque manner so reminiscent of his famous 'Hell an' Maria" speech that Representative Rainey, the Democratic leader, said afterward:

"The Dawes statement has spiked the bonus movement just as another Dawes statement stopped the war expenditures investigation."

"Peanut Stand"

More the soldier than the banker-statesman, as he paced before the committee, Dawes lashed at congressional critics of the Reconstruction Finance Corporation which he heads, with charges of "political demagoguery."

He dismissed the New York stock exchange as a "peanut stand," in comparison with what he termed the real business of the country.

"The whole country is looking at picayunish transactions of speculators on the stock exchange," he asserted, "but it isn't what Wall Street thinks down there at that peanut stand; it's what the great mass of the people feel and they're feeling better; take it from me.

"Great credit is due the credit corporation but I don't think the great corporation did anything but help. Prosperity is bound to return as sure as the sun rises in the morning."

With a gesture of emphasis, he said at another point:

"Keep politics out of the Reconstruction Finance Corporation. Don't indulge in this talk that only the big fellows are being helped by the corporation and that there is discrimination against the little fellow.

"The corporation is working for the whole people of the country."

Dawes began his testimony by reading a prepared statement on the operations of his $2,000,000,000 corporation, stressing the number and amount of loans to small banks and trust companies and dwelling particularly on the $17,100,000 Missouri Pacific Railroad loan whoch drew senate criticism. Part of the money went to J. P. Morgan & C.

When he concluded his lengthy statement he answered a few questions, until the bonus was mentioned directly for the first time.

"I've got a prepared statement on that, too," Dawes said, drawing one from his pocket and reading it rapidly.

"It (the Patman bill for a $2,400,000,000 issue of the treasury notes to meet tthe bonus payment) would be in effect an issue of fiat currency.

Destroy Confidence

"Such an issue, in my judgment, would have a disastrous effect upon the country's currency system, upon the credit of the federal government and upon the entire credit structure of our country. x x x

"The inflation of currency will destroy, in my judgment, the

Shipments Of Ore And Coal Will Be Way Below Normal

Cleveland, April 21 (AP)—Coal and ore shipments on the nation's inland seas will be only 30 percent normal this season, members of the Lake Carriers Association estimated at their annual meeting today.

About 25,000,000 tons of coal and 15,000,000 tons of ore are expected to be handled, according to George A. Marr, vice president, secretary and treasurer of the association. Last year approximately 31,000,000 tons of coal and 23,000,000 tons of ore were moved.

Like last year, when a ratio of 26 years standing was reversed, more coal will be handled than ore. Ordinarily, ore shipments are about twice those of coal, but this year a large tonnage of ore is still stored at lower lakes docks.

TAX ON CHAIN STORES DENIED

Sensational Charge Hits Fenner, Lobbyist for Measure

Lansing, Mich., April 21 (AP)—The movement for consideration of a chain store license tax by the special legislative session was defeated in the house today as a sensational charge was read into the record against the principal advocate of the proposal, C. V. Fenner, president of the Michigan Home Defense League.

The proposal was voted down after Gus T. Hartman, administration whip, read into the journal of the house a charge that Fenner had demanded $10,000 from Detroit department stores to abandon his lobby in behalf of a graduated sales tax.

Hartman at the same time read a letter from Governor Brucker to Fenner dated April 11, in which the executive expressed his opposition to the enactment of any new taxes by the special session.

After a bitter debate which brought vigorous denunciation of Fenner and his lobbying methods, the house voted overwhelmingly to table the chain tax resolution which the senate adopted Tuesday. The two co-authors of the sales tax meaure defeated in the last session, Reps. James N. McBride, of Burton, and Ate Dykstra of Grand Rapids, opposed the resolution.

Requested $10,000

The charge against Fenner was contained in a letter to the governor from Charles E. Boyd, secretary of the Detroit Retail Merchants Association, reporting a conversation between Fenner and Boyd four days before the opening of the special session. "How much would it be worth to your larger stores if I should drop the graduated sales tax and go out after a unit license tax like the Indiana plan?" Fenner was quoted as asking Boyd.

"If your stores would contribute $10,000 to my use, I am convinced that I could change the sentiment in the legislature so that it would be favorable to a license tax," Boyd represented Fenner as saying. "We ought to be able to get considerable money if we tried to raise this fund from chain stores because it

Engineer Dies With Hand On Throttle

Sarnia, Ont., April 21. (AP)—With his hands on the throttle of the Chicago to Montreal international limited of the Grand Trunk Railroad, Engineer Alex Bond, 62, fell dead today as the train neared Strathroy, Ontario.

Samuel Falconer, the fireman, leaped to the throttle and brought the train to a stop.

Bond, a Sarnia resident, is believed to have suffered a heart attack.

Identity Of Bank Robber Is Learned

Ithaca, Mich., April 21 (AP)—A youth who gave his name as Charles Wood and his address as Chicago when arrested yesterday after robbing the Pompeii State bank, was identified today as Ray Viles, 23, son of a farmer living near Ashley, Mich.

Officers said they had learned that Viles had used his brother's revolver in the robbery. The prisoner stood mute when arraigned in justice court today.

President Of Bank Commits Suicide

LaPeer, Mich., April 21 (AP)—George R. Buck, president of the LaPeer Savings bank, shot and killed himself this afternoon in a room at the bank. He was 59 years old.

Officers of the bank said his act was due to ill health. He had just returned from three months of treatment in a sanitarium. His widow and a daughter, Mrs. William Cansfield, of Howell, survive.

James Rolph, Jr., of California who denied the pardon. The buildings shown are part of San Quentin prison.

TWO KILLED AS TRAIN DERAILS

Believe Crash Deliberate Attempt to Wreck Flyer

Portsmouth, Ohio., April 21 (AP)—Two trainmen were killed and several passengers injured when a Norfolk and Western passenger train was derailed about 20 miles east of here today in what railroad investigators believe was a deliberate attempt to wreck the flyer.

The dead are Engineer J. H. Myers and his fireman, J. J. Kemp, both of Portsmouth.

Three of the injured—Carl Wright, Columbus, mail clerk; J. H. Vanhemmert, Sardian, Ohio, mail messenger, and D. A. Cole, Hinton, Va., express messenger—required hospital attention.

Four Bolts Removed

The train, crack Norfolk and Western flyer, "The Pocahontas" eastbound for Norfolk, was traveling at a mile-a-minute clip when it struck a switch point from which four bolts had been removed.

The engine jumped the track and overturned and an express car and combination passenger-baggage coach were derailed into a ditch.

Railroad officials said track walkers yesterday had discovered the bolts removed from the switch and had replaced them. They had been removed again today.

D. F. Peters, division superintendent, said it was the work of "experts" who were familiar with railroad operations.

A 15-year old boy, James Leland of Chillicothe, Ohio, was arrested shortly after the wreck by railroad detectives, who found him standin gin a nearby field. The boy said he had been "bumming" a ride and had been thrown when the train was derailed.

Farrell Displays Faith In Business In Farewell Speech

New York, April 21 (AP)—Unbounded confidence in the future of American industry was expressed tonight by James A. Farrell, retiring president of the United States Steel Corp., in a farewell address to leaders in the industry.

Prominent steel men from various parts of the United States and Canada attended a dinner given in honor of the veteran steel maker at the Waldorf Astoria by the American Iron and Steel institute.

"In spite of the trials to which we have been subjected in these times of world confusion and instability," he declared, "I can see no grounds for despondency regarding the future. Looking to the future of American industry, I can find nothing in the present situation to rob me of my faith in the essential soundness of our industrial system, or in the power we still possess of resistance to the gloomy forebodings of those who have forgotten our past history as a nation."

Senate To Dig Deeper Into Sales

BY NATHAN ROBERTSON
(Associated Press Staff Writer)

Washington, April 21 (AP)—A relentless effort to determine the true identity of Wall street's important short sellers was ordered today by the senate banking committee after it made public a long list of bear operators obviously and profusely studded with dummy names.

Resuming its investigation of the effect of short sales upon security prices and public confidence, the committee today found itself the center of a series of striking developments.

Senator Watson of Indiana, the Republican leader, told newspapermen it was his firm belief that international bankers had tried to smash the market and force cancellation of the war debts by deliberate efforts to delay business recovery.

Richard Whitney, president of the New York Stock Exchange, was submitted to another all-day session of gruelling cross-examination culminating in an assertion that his brokerage firm had maintained the market for German reparations bonds, while they were being sold, by buying them on the market for a banking syndicate headed by J. P. Morgan and Company.

To Study Records

Whitney's testimony was interrupted toward the close of the day by exchanges with Chairman Norbeck, who complained the witness' replies were unsatisfactory. Meanwhile, nearly a score of New York brokers and traders, including Percy Rockefeller, were waiting under subpoena to take the stand. They will be

DELAY MASSIE MURDER CASE

Prosecution Asks Time To Let Alienists Plan Evidence

BY WILLIAM H. EWING,
(Associated Press Staff Correspondent)

Honolulu, April 21 (AP)—Behind the scenes in the trial of four persons accused of lynching Joseph Kahahawai, the prosecution today fought the defense contention that Lieutenant Thomas H. Massie was insane when he wielded the pistol that killed the native.

Court sessions were postponed until Saturday at the request of Prosecutor John C. Kelley to permit two newly arrived California alienists to prepare evidence.

One is Dr. Joseph Catton, San Francisco alienist who contributed to the testimony that brought a conviction and death sentence to Mrs. Winnie Ruth Judd for the murder of two women in Phoenix, Ariz.

The other prosecution alienist is Dr. Paul Bowers of Los Angeles, who made no secret of his mission upon arrival today.

At least one of the territory alienists made arrangements to

Drive On Delinquent Taxpayers Planned

Detroit, April 21 (AP)—City Treasurer Charles L. Williams announced today that a score of experienced debt collectors would be put next week on the train of delinquent taxpayers who owe $19,000,000 in delinquent 1931 taxes.

The campaign, he said, will be similar to the one conducted against delinquent personal tax payers last December. That drive he said, raised the personal tax collections to 88 percent, compared to the 62 percent of property taxes now paid.

Famous Aviatrix Held In Death of Man She Had Desired to Marry

Miami, Fla., April 21 (AP)—A romance between Mrs. J. M. Keith-Miller, Australian flier, and Haden Clarke, 31, whom she learned to love while he wrote a history of her life, ended today with his mysterious death from a pistol shot.

Mrs. Keith-Miller was held incommunicado in the county jail after the shooting, as was her flying partner for several years, Captain W. N. Lancaster, former British aviator.

State Attorney N. Bernon Hawthorne said he expected to question Mrs. Keith- Miller and Lancaster in detail tonight regarding their knowledge of events connected with the shooting in the house occupied by the trio.

Investigators said notes left by Clarke pointed conclusively to suicide. Mrs. Ida Clyde Clarke, his mother, a Universtiy of Miami professor, agreed on this point and said her son had had financial worries. Mrs. Keith-Miller and Lancaster were vehement in their assertion the young man took his own life.

Letters found by the investigators included one from the aviatrix to Lancaster, then in St. Louis, and one from Clarke to Lancaster. Each told of Clarke's and her intentions to marry.

An answering telegram from Lancaster sent last Sunday from St. Louis, told the two "kids" he did not want to be a "dog in the manger," wished them every happiness and urged that they defer their marriage until after his return here. He arrived by airplane last night.

One of the two notes found after

U. P. ASSAULTS HIGHWAY BILL NOW IN HOUSE

COATES SAYS FUND FOR BUILDING IS INSUFFICIENT

Lansing, April 21 (AP)—As the fifth edition of the administration highway fund diversion bill reached the house from the senate today it met with a new attack that promised further revisions.

Highway Commissioner Grover C. Dillman appeared before the house roads and bridges committee to inform the group that the measure in the present form would create a $2,500,000 state highway maintenance deficiency.

Meanwhile the house adopted a resolution, sponsored by Rep. Arthur C. MacKinnon of Bay City directing the highway commissioner to furnish complete information on the bill.

Questions which MacKinnon asked the commissioner to answer were the amount of money that would be available for construction and maintenance, what effect the measure would have on the surfacing of trunk line roads graded under the winter welfare program, and the effect of the bill on the paving or reconstruction of old pavements on US-10, 12, 16, 23, 25, 27, 31, 41, 112, 131 "or other roads of equal importance and similar needs." Dillman indicated the data will be available early next week.

Tubercular Aid

The bill was also greeted with opposition from upper peninsula members who insisted the $6,000,000 construction allowance is not enough for the state's needs. Rep. Claude W. Coates of Munising said he was prepared to contest the proposed allowance.

The house today insisted on its amendment to maintain state tubercular aid to the counties at $1 a day and a conference was ordered with the senate which approved a 15 percent reduction. The bill also would validate the $1,400,000 debt of the state to the counties for the care of indigent patients.

The house passed and sent to the senate the Hull bills to permit receivers of closed banks to distribute uncashed assets in liquidating claims; the Powell bills permitting supervisors and township boards to fix the per diem compensation of county and township officers now set by statute and reducing the minimum salary of township treasurers from $600 to $300 annually; the Miller bill suspending the operation of the statute providing additional probate judges in counties which have not selected the jurists; and the Hatch bill requiring the apportionment of county tax collections on pro rata basis among the several funds. The Stevens bill authorizing the refunding of some $30,000,000 bond anticipation notes by the City of Detroit was sent to the governor.

Seek To Contact Kidnapers Again; Birthday For Son

Hopewell, N. J. April 21 (AP)—Charles Augustus Lindbergh, Jr., held somewhere by kidnapers, will have his twenty-second monthly birthday tomorrow.

Probably neither he nor his captors will observe it, but Mrs. Anne Morrow Lindbergh, in the big white house on Sourland mountain, will remember, as the racking vigil continues.

Secrecy still veiled activities in the attempt to re-establish contact with the kidnapers, who Colonel Lindbergh believes accepted $50,000 ransom money and then failed to return his son, stolen from his crib on March 1.

The woman who flew from Kansas City this week in a privately chartered plane, visited the Sourland mountain house and would not tell her name was identified at Kansas City today as Mrs. Elizabeth Faubion, wife of a machinist. Her trip was termed a "curiosity hop" by the Kansas City Star.

"I just wanted to see the Lindbergh home," she is reported as having said to Walter C. Taber, owner of the plane.

Depression Drive Nets More Results

New York, April 21 (AP)—Sixty communities in 28 states, the war against depression headquarters announced tonight, found jobs for 12,146 wage earners during the day.

The national job total to date was placed at 563,096, slightly more than half of the quota of 1,000,000 that has been set. The Michigan total was placed at 20,760. Reports from Michigan communities today were: Birmingham, 9; Iron River, 24; Flint 13; Midland, 39; Monroe, 3, Traverse City, 60.

Local Boy Falls Under Train; Left Leg Is Cut Off

Attempting to jump off at the Twenty-third street crossing after taking a ride on a south bound freight, John Ferrari, 9, of 312½ Stephenson avenue, fell under the train and his left leg was cut off below the knee. The accident occurred between 4 and 5 p. m. Thursday as Train 280 was pulling out of Escanaba, with Peter Garrity as conductor. The freight was stopped immediately as members of the crew saw the accident, and assistance was given in taking the boy to the hospital. The left leg was completely severed, and one toe on the right foot was amputated, in addition to other minor injuries revealed in the examination.

The boy is one of six children of Mr. and Mrs. Andrew Ferrari. When the parents were notified of the accident the boy had already been taken to St. Francis hospital.

JOHN B. NOVACK, JEWELER, DEAD

Escanaba Man Had Wide Reputation in Lens Work, Astronomy

An Escanaba jeweler, John Bruno Novack, whose hobby, astronomy, brought him acquaintanceships with leading scientists of the nation, died at 8:30 a. m. Thursday at his home, 212 First avenue south. He was 57 years old. Illness last fall forced Mr. Novack to retire from the business he had been affiliated with since he was 12 years old, and for the last two months he suffered intensely from his affliction, diagnosed as carcinoma of the stomach.

JOHN B. NOVACK

Mr. Novack was born April 1, 1875, at Chicago, and was left an orphan when he was four years old. At the age of 12 he began to learn the trade of jeweler as an apprentice under Oswald Fulde, known at that time as one of Chicago's most noted watchmakers and jewelers. When he was 19 Mr. Novack came to Munising and entered the employ of Charles Carlson. After a few years in the Carlson jewelry store he went to Hancock, where he worked in Frank Mayworm's jewelry store. He came to Escanaba 33 years ago and rented a space in the notion store conducted by Narcisse Blanchet, at 806 Ludington, and ten years ago moved into the present store he built at 1302 Ludington.

Lens Expert

Mr. Novack, an expert watch repairman and grinder of optical and astronomical lenses, from early boyhood, had been an ardent student of astronomy and was a member of the American Astronomical society, the membership of which is limited to 87 of this country's most distinguished students of the heavenly bodies.

He often visited at Williams Bay, Wis., at the Yerks observatory which is a part of the University of Chicago. In 1905 he built a private observatory tower at his home where he could further his studies. In the course of his studies, Mr. Novack has written several articles for scientific journals and newspapers.

As a producer of accurately ground lenses for astronomical instruments Mr. Novock gained for himself a national reputation. Orders for his services in that line came from all parts of the world and such institutions as Yerkes and Lick observatories sent him a great deal of work, requiring the patience and ingenuity that only an expert possesses.

Mr. Novack was married to Miss Anna Kelly, only daughter of the late Mr. and Mrs. Paul Kelly of this city, on August 21, 1905, at St. Joseph's church. He is survived by his widow, two sons and one daughter, Paul and John Novack of this city, and Mrs. Elmer Klanderude of Wausau, Wis., the former Miss Laura Novack, two grandchildren, one sister, Miss Hattie Novack of Chicago, and an aunt, Mrs. Amelia Steinke of Escanaba.

The body was prepared for burial at the Allo Funeral Home and will be removed to the family home this evening. Funeral services will be held Monday morning at nine o'clock at St. Joseph's church when a requiem high mass will be celebrated. Burial will be in the family lot in Lakeview cemetery.

Prisoner Stabbed In Oklahoma Pen

McAlester, Okla., April 21 (AP)—Accused of "snitching," J. C. Shock, 30, serving a ten year sentence from Rogers county for bank robbery, was stabbed yesterday by Emory Holland, 24, another convict in the state penitentiary here.

The slaying was revealed today when a murder charge was filed against Holland.

SAYS FORMER LABOR LEADER TRULY GUILTY

DECISION IS MADE AFTER LENGTHY DELIBERATION

Sacramento, Cal., April 21, (AP)—Governor James Rolph, Jr., today unconditionally and with blunt finality declined to grant a pardon to Tom Mooney, convicted of bombing the San Francisco preparedness day parade of June 22, 1916.

The governor, the fourth to flatly refuse to liberate the former labor leader, whose sympathizers throughout the world have long regarded as a martyr to the cause of labor, made his findings public in an atmosphere charged with tension and expectancy.

The decision came after nearly five months of deliberations during which Governor Rolph had the advice and counsel of Matt I. Sullivan, former chief justice of the state supreme court.

Sullivan, Louis Byington, a supervisor, and Daniel J. O'Brien, head of the state department of penology, sat with the governor at the hearing last December. Then, after nearly three yars of quiescency, Mooney's conviction again became a national issue through the championing of his cause by Mayor James J. Walker of New York.

Mooney Not Surprised

In a room adjoining that in which the governor read his decision, Mooney's aged mother waited, unable to hear the governor's words.

"What is he saying? What is he saying?" she kept repeating and when told that the decision had been unfavorable she appeared to understand.

With a smile of resignation, Mooney himself received the verdict in the office of Warden James B. Holohan at San Quentin penetentiary where he has served nearly sixtee nyears of a life sentence.

It was apparent that he had built little hope upon the result of his latest effort to clear his name of the crime for which he was convicted, but persons in his confidence did not expect that the door would be completely closed to possible future consideration by the present governor.

Blunt as were the words governor Rolph used in declaring his conviction that Mooney was guilty and had been fairly tried, even more outspoken was the verbage of Sullivan's report on which Governor Rolph largely relied. Speaking of Mooney and Warren K. Billings, Sullivan declared:

"Their insensate hatred of our present form of government and their fanatical desire to substitute the red flag of revolt for the stars and stripes impelled them to commit the deed."

Mooney was convicted with Billings, now a prisoner of Folsom penetentiary, of setting the bomb which killed ten persons and injured 40 others while the preparedness day parade marched up Market street, headed by the then Mayor James Rolph, Jr.

The governor's decision reviewed the progress of the case since Mooney first applied for executive clemency to Governor William D. Stephens. The latter commuted his death sentence to life imprisonment upon the intercession of President Wilson and since then Mooney has refiled his application from his San Quentin prison cell without gaining clemency from Governors Friend W. Richardson and C. C. Young.

"Justly Convicted"

"We have examined, read and studied all available documents and information and have pursued independent investigations for the purpose of ascertainng every available fact throwing light upon the question as to whether Thomas J. Mooney was justly con-

BUSY WEEK IN POLITICAL FRAY

Roosevelt Faces Smith In Supreme Tests In Primaries

Washington, April 21 (AP)—As a preliminary to a banner week of presidential delegate picking, Illinois Republicans and Democrats will hold state conventions tomorrow to complete the selection of their delegations to the Chicago national conclaves.

Each party named fifty district delegates at the April 12 primary in Illinois and tomorrow's meetings will choose 11 Republicans and eight Democratic delegates-at-large filling the delegations of 61 and 54, respectively.

On Monday, Oklahoma Republicans will name 25 delegates at a state convention to start off a busy political week and one which may be decisive for both parties.

In all, 382 delegates will be chosen—264 Republican and 118 Democratic—to boost the totals to 720 and 602, respectively. There will be 1154 full delegate votes in each convention.

All of the Democratic delegates netx week will be chosen on Tuesday at the big Massachusetts and Pennsylvania primaries and another in far-off Alaska.

Hoover Way Ahead

Gov. Franklin D. Roosevelt, now far in the lead for the Democratic presidential nomination with 255 pledged and claimed delegates, faces his supreme test against the forces of Alfred E. Smith in the two eastern primaries. The results are awaited with the keenest interest since they are expected generally to hold a definite answer whether the Roosevelt march to victory can be stopped.

Managers of President Hoover, who now has 423 delegates pledged and claimed for him with only 578 needed to renominate him, looks for next week's selections to give him the required majority, including claimed totals. Many of the latter, however, are disputed by former Senator Joseph I. France of Maryland, who says the Illinois, Nebraska and North Dakota delegations are bound to him by the preference votes in those states.

The week's calendar calls for the following delegate selections:

Democratic:

Massachusetts primary Tuesday, 36.

Pennsylvania primary Tuesday, 76.

Alaska primary Tuesday, 6.

Total—118.

Republican:

Oklahoma convention Monday, 25.

Massachusetts primary Tuesday, 34.

Pennsylvania primary Tuesday, 75.

Alaska primary Tuesday, 2.

Arkansas convention Tuesday, 4.

South Carolina convention Tuesday 4.

Kentucky convention Wednesday, 25.

Michigan convention Wednesday, 41.

Minnesota district conventions Friday, 18.

Minnesota state convention Saturday, 7.

Nevada convention Saturday, 9.

Arizona convention Saturday, 9.

Mississippi (negro) convention Saturday, 11.

Total—264.

Ruling Of State Supreme Court Is Relief To Chicago

Chicago, April 20 (AP)—A strike of taxpayers in Chicago was ended today by a ruling of the state supreme court. Collection of back taxes and the restoration of Chicago's financial credit were made possible by a court decision which held valid the assessment rolls of 1928 and 1929 as well as of 1930 by reversing a decision of Judge Edmund K. Jareski.

He had held previously that the levies were illegal because they did not tax personal property enough. The high court decision meant the county could proceed with the collection of overdue taxes—more than $100,000,000 still unpaid, more than $72,000,000 tied up court action and in addition to 1930 taxes only partly paid.

The real estate associations that had fought to have the rolls invalidated threatened to carry the case to the United States supreme court.

would be economy to them to have this legislation rather than the graduated sales tax plan." Boyd added that tthe Home Defense League president said it "would be up to me to raise the funds."

The governor's letter to Fenner read by Hartman said: "I am taking this opportunity to inform you that I have definitely concluded against opening the question of any new taxes of any description beyond that covered by my original message."

"My reason," the governor continued, "will be readily apparent to you. The condition of our people is such that a tax which threatens to the slightest increase in the cost of necessities is likely to have a most undesirable effect upon public morale."

The resolution defeated in the house was a substitute for the Sadowski measure approved by the senate. The house resolution provided that tthe revenue be used to pay the $1,400,000 owed by the state to the counties for the care of indigent tuberculosis patients.

After Hartman had read his charges against Fenner, Rep. Dykstra, one of the legislature's outstanding sales tax advocates, spoke against the resolution.

"The methods used by Fenner are so despicable that I won't be a party to anything he will advocate," he said. "I will not accept this tax measure at the instance of Fenner. I don't believe there will ever be a sales tax as long as he is connectedwith it. Until the retail dealers in southern Michigan realize they have the wrong man as their leader, they will have no chance of getting this tax."

An offer last year by Fenner of $10,000 to Governor Brucker for his campaign and thte promise of 50,000 votes for his candidacy in return for his support of a sale stax was recalled by Rep. McBride. "How can we expect the governor to consider such a tax in view of this attempted bribe?" McBride asked. He immediately moved the resolution be tabled.

Hotel Proprietor Of Detroit Passes

Detroit, April 21, (AP)—Lester Briggs, 40, hotel propietor and manager of numerous amusement enterprises in and near Detroit, died today at his suite in the Briggs hotel after illness of two months.

Briggs rose to wealth and prominence in Detroit from a position as waiter in a restaurant operated by his father. His amusement enterprises were numerous in Detroit, and he early in his business career took over the management of the Ste. Clair hotel. He opened Venice Beach on Lake Ste. Clair, and operated Oriole Terrace, Detroit night club, until it was padlocked two years ago by federal order.

victed x x x including as far as obtainable the history of the life of Thomas Mooney," Governor Rolph said in his decision.

"We have also examined and read and given consideration to all of the proceedings occurring before the justices of the state supreme court x x x upon the application of Warren K. Billings for a recommendation by them of a pardon.

"I believe it proper to state that we approached the hearing of the application and undertook the labor necessarily involved in its consideration with open minds, in a spirit of absolute fairness and without any bias or prejudice of any kind against Thomas J. Mooney.

"These facts, taken in conjunction with all of the other matters above mentioned x x x have convinced us that Thomas J. Mooney was guilty of the offense charged against him; that he was justly convicted by the jury before whom he was tried; and that the application made on his behalf for the pardon should be denied."

Mayor Walker was not mentioned by Governor Rolph but Sullivan referred to his San Francisco plea as "eloquence misapplied."

"We were very much interested in the eloquent appeals by the distinguished counsel for Mooney at the hearing of his application for pardon," Sullivan's report stated, "but we believe, however, that they must have been ignorant of the past life of Mooney, his record as a dynamiter, his public and private utterances in favor of anarchy and revolution, his publication of the 'Revolt,' (a San Francisco paper Mooney published before the bombing); his connection with the Blast and The Blasters. heard tomorrow.

Whitney's testimony was broken by a spirited executive session in the course of which the future conduct of the investigation was determined. Dispute ran high, but finally upon Watson's motion the group agreed to press the inquiry to the bottom.

It was proposed that special investigators be sent to New York to study the records of the exchange and of various brokerage houses to discover who was behind the spurious names contained in the list submitted by the exchange.

The list of short sellers produced the greatest sensation of the day, though it did not include any nationally known figures. It contained, however, the names of some well known Wall street traders.

One of the largest short accounts, 46,400 shares in 25 stocks, was in the name of the American Brush company. In New York associates of Matthew C. Brush, generall regarded as an active short trader who has been subpoenaed by the committee, said they understood he had a trading company by that name.

Harry Content, another well known trader who has been subpoenaed, was recorded with a short interest of 7,000 shares in General Motors. Louis Kaiser and company, which also has been subpoenaed, was credited with a short account of 18,500 shares. A block of 39,200 short shares in General Motors was recorded under the name of T. M. Howell.

Two banks were listed in the big short accounts. The Hollandsche bank was charged with 9 675 shares in a number of corporations; and the Travelers bank had a short account ni 16 stocks including 35,225 in General Motors.

Another large account, of 43,825 was listed under the name "Broseco Corporation."

Whitney's appearance again drew a capacity crowd to the big marble-lined committee room, and most of the committee members sat through the cross examination which lasted until dusk.

Questioned by William A. Gray, the committee counsel, about "pegging" the market for German reparation bonds, Whitney said his firm had bought $9,200,000 of the bonds for the selling syndicate while the securities were being marketed.

Estate Of Edgar Wallace In "Red"

London, April 21. (AP)—The Daily Mail said today that an affidavit of Edgar Wallace's estate, to be presented for probate tomorrow, showed debts of about 81,000 pounds (currently $304,560) and assets of 18,000 pounds (currently $67,680), while the personal estate of the late author, who died in California on February 10, was nil.

The affidavit, however, was subject to correction, the newspaper said, as it was incomplete regarding his earnings in Hollywood .The mail quoted his widow as having said the debts were due to heavy racing losses, extravagant living and excessive generosity.

The prosecutor also seeks a ruling from Judge Charles S. Davis to permit the trial record to show that a paper which Mrs. Massie destroyed in a fit of anger on the witness stand was permissible as evidence. The paper supposedly told of a rift between herself and her husband a few months before the attack. It was in the form of answers to a psychopathic examination at the University of Hawaii.

Clarence Darrow, chief defense attorney, chuckled today at the memory of Mrs. Massie's spectacular outburst on the stand, which he called the most dramatic in his long career as a criminal lawyer.

Kelley also grinned at the fit of temper he exhibited in matching Mrs. Massie's fury. He said he had neglected to have a copy of the paper made.

Previous to her outburst Mrs. Massie had testified about hearing rumors involving herself and her husband after five accused men, including Kahahawai, had been tried for the assault and the jury had disagreed.

Miss Mapuana Peters, stenographer for the prosecuting attorney, who took statements from at least two of the defendants, Mrs. Granville Fortescue, mother of Mrs. Massie, and Albert O. Jones, shortly after the killing, also was on the territory's list of rebuttal witnesses.

The air of tenseness which pervaded the courtroom yesterday had dissolved today when the defendants, Massie, Mrs. Fortescue, Jones and E. J. Lord filed in.

Spelling Bee Notes

Several letters from pupils in schools entered in the second Daily Press spelling bee telling how much they enjoyed the work and how they conducted practice have been received by the bee director.

The first is from Dale Tienert, junior champion of the Masonville school. It follows:

"Dear Spelling Bee Manager:

"I am writing you a letter to tell you about our spelling bee base ball game.

"My sile is named the Cubs. The other side is named the White Socks. Our score is one hundred and twenty-one. Their score is only forty-seven. I will tell you how we play the game. When the first batter comes up, the pitcher gives him a word, and if he can spell the word he may go to first base. If the batter cannot spell it and the catcher can, the batter is out. We have a first baseman, second baseman and third baseman. When the batter goes to first base, the first baseman gives him a word and if the batter can spell it he may go down to second; if he cannot, he is out.

"I have learned many new words since our spelling bee started. I spelled the room down three times since the contest began. I like it very well as the contest helps me to get my daily spelling lessons easier.

"I am manager of our team. Henry Lindberg is the manager of the other team. We get the Press at school and we read and enjoy it very much. We read the contest notes to see who the other winners are. We are very interested in the contest and hope you have one next year.

"I am nine years old and in the fourth grade.

"Sincerely yours,
"Dale D. Tienert."

The second letter is from the seventh and eighth grade pupils of the Bark River school and was written by one of the boys as a language assignment. It follows:

"Director of Spelling Bee,
"Escanaba, Michigan.

"Dear Sir:

"During the time that we have been studying the spelling words for the contest we have had much fun. We have also learned much from these words so even if we fail to win, the knowledge acquired will not be useless. We play games in studying these words. The one that we play most of the time is pum-pum-pull away. In playing this game two captains choose sides. Our teacher then gives a word to one captain and he attempts to spell it. Should he fail to spell the word correctly the other side's first man or captain spells it. Because of the first side's failure to spell it correctly the captain of the side which spells it right chooses a man from the opposing side. This same procedure is gone through all down the lines of spellers.

"Yours truly,
"Seventh and Eighth Grades."

COUNCIL SCANS PAY SCHEDULES

Reduction in Escanaba City Costs Promised In 1932 Budget

In anticipation of a general reduction of city expenses to coincide with lessened incomes of taxpayers, the Escanaba city council last night opened a discussion on salary cuts for city employes. No action was taken, but members of the council will study the city salary schedule during the coming week, and the matter will be taken up again next Thursday with a view of embodying salary revisions in the new budget for the fiscal year of 1932-33 and making recommendations for the guidance of the city manager in preparing the budget.

Two petitions for city improvements were submitted at the council session last night. One group of property owners asked for a widening of the Willow Creek drain, claiming that in its present condition the drain was not large enough to carry away flood waters and that basements in the vicinity drained were flooded for a period every spring. Another delegation asked that Eighth avenue north be opened up and extended through to the concrete pavement on Twenty-third street. Under a plat adopted in 1926 no street was provided for in the area in question, and it will be necessary for the city to purchase additional property to put the street through. The council referred the matter to the city manager and city attorney, and the request for the Willow Creek improvement was also referred to the city manager for investigation.

Donation Split

Several northside property owners appeared to protest the cost of a sanitary sewer extension between Seventh and Eighth avenues north, between Eighteenth and Nineteenth street, and to ask that the alley between Seventh and Eighth avenues be improved. Inasmuch as the sewer extension had been duly advertised and no objections received to the assessment, the council ruled that the customary proceedure must be followed and that no exceptions could be made in levying costs. Improvement of the alley was authorized, however, and the council instructed the engineering department to see that the sand is covered with surfacing to make it passable.

A communication from the local Women's Relief Corps unit, asking the usual donation for Memorial Day was read. In keeping with the general trend of reduced expenses, the council voted to cut the usual contribution in half, and authorized the sum of $62.50 for the W. R. C. request.

A. A. Brensley of Chicago, representative of the municipal engineering firm that designed the local sewage disposal plant, gave the council a brief summary of progress on the plant construction, now about 90 percent completed. The sprinkling filter, now being built, will require another ten days, he said. Then rock will be placed, the revolving sprinkler installed, and the plant will be virtually complete. Work was started in September and was carried on almost continuously during the winter as a result of favorable weather. Members of the council plan to visit the site this afternoon, and a public dedication ceremony is planned for later when the entire plant is in full operation.

The session Thursday evening was the first regular meeting of the new Escanaba city council since the organization last week. Mayor Carl J. Sawyer presided, and all members were present.

CORNELL NEWS

Cornell, Mich. (Special)—A band of gypsies visited this vicinity Monday, causing considerable excitement. One car of them stopped at John Listle's store and nearly got away with a few dollars in bills. It came about in the following manner: One woman came into the store and ordered a bar of candy, giving a nickel in payment. While Mr. Listle was putting the money into his money box, the woman stepped behind the counter and took a package of gum. Turning with the money box in his hand Listle ordered her to put the gum back but instead she reached into the box and grabbed a handful of bills. He immediately took hold of her hand and forcing her to give up the money put her out of the store.

Now that spring has arrived the farmers of this vicinity are busy preparing for the spring work. Drills, plows, harrows and other farm tools are receiving a thorough reconditioning, and seeds are being cleaned and tested preparatory to seeding.

Sanford Harrod and sons and Anna Nelson returned from a trip to Indiana Monday. They were gone ten days during which time they visit at Chicago and other cities of importance along the line.

Gilbert Taylor left Tuesday for Merrill, Wis., where he will visit at the homes of several relatives.

SPRIG HAS CUB, WITH GOOSE PIMPLES

The mirror-like calm of Bay de Noc and the lure of the lucious sunshine proved irresistible to three Escanaba damsels Thursday. They donned their bathing suits, and as far as Salt and Pepper is concerned they hold the undisputed honor of being the first to bathe in Bay de Noc in 1932, goose pimples and colds in the nose notwithstanding.

SPRING IS HERE; TURN ON THE "HEAT"

Another evidence that spring has officially arrived, says Salt and Pepper's retail advisor, is the renewed demand for canned heat. To the uninitiated, it is explained that canned heat is sometimes used for beverage purposes, and is said to be very effective. Straining it through a handkerchief will extract, they say, a certain amount of extremely bad-natured alcohol. Like eating oysters, drinking canned heat is limited to a certain season, and it is considered extremely bad form to even gargle it out of season.

HIGH FINANCE EARNS ORCHESTRA 71 CENTS

After booking an engagement in Menominee, a budding young Escanaba orchestra found that the transportation problem was proving a sticker. Their parents refused to donate automobiles in view of current road reports, and finances didn't permit the hiring of a bus. A compromise was agreed upon with the chartering of a taxi which carried two members of the orchestra and all the instruments. The rest of the diciples of Vallee and Whiteman hitch-hiked to Menominee and got there ten minutes ahead of the taxi. The same system was employed on the homeward stretch, and when receipts were audited and expenses deducted, the boys found they had 71 cents profit, plus good will and favorable advertising.

Will Open Bids For Mail Route Here Tomorrow

Bids for the temporary contract, for carrying mail between Escanaba and Gladstone beginning May 1, will be opened by the postal department on Saturday, Postmaster George G. Geniesse said yesterday.

About fifteen truck owners have submitted bids already, and it is expected that the number will be increased as about forty persons have asked for application blanks.

The mail truck will have to make five round trips daily between Escanaba and Gladstone, and two trips on Sunday. It is estimated that the total mileage traveled will be close to 35,000 miles per year.

House In Favor Of Immediate Payment Of Soldiers Bonus

Lansing, Mich., April 21 (AP)—The legislature today completed its argument over the soldiers bonus when the house approved a resolution memoralizing congress to pay the balance of the face of the certificates.

The vote was 78 to 12. The senate previously had adopted a similar resolution.

The debate at one time switched to politics and prohibition. Rep. James N. McBride, of Burton, asked "where will the government get the money," and Rep. Tracy W. Southworth, Monore Democrat, mentioned the repeal of the eighteenth amendment.

Rep. Robert D. Wardell of Detroit, had previously charged that the Democrats in congress, "who got us into the war" are now opposed to the payment of the bonus."

Man Who Shot His Uncle Is Acquitted

Detroit, April 21 (AP)—A recorder's court jury today returned a verdict of not guilty in the case of Peter Maniaci, 22, who admitted shooting his uncle, Paul Bommarito, because he failed to marry Maniaci's deaf-mute sister.

WE HOLD THE BAG

COMPLETE collapse of opposition in the state senate to the administration plan for diverting the entire receipts from automobile weight taxes from the state highway fund, removes practically the last vestige of hope for the completion of the upper peninsula's trunk line construction program, for many years to come.

It is true that the bill passed by the senate on Wednesday must still be adopted by the house, but administration pressure, that forced the measure through the senate, will undoubtedly be applied in the house, so it may as well be set down as an accomplished fact.

The Press remarked, at the opening of the special session of the legislature at Lansing, that the upper peninsula could hope for little if any benefit to flow from the session for this section of Michigan.

The adoption of this plan seems to offer abundant proof of that prediction.

TEAR THEM DOWN

THE spring clean up season has arrived, and many Escanaba citizens are engaged in beautifying the appearance of their homes and lawns. Here and there about town, old, dilapidated shacks and sheds are being torn down, too.

The razing of these old landmarks is a real contribution to community safety and beautification. There are many more about the city, standing unoccupied and merely forcing the owners to pay taxes upon them.

It would be much better for everyone if these structures were torn down, for besides being an expense to their owners these buildings increase fire insurance rates in the neighborhood. In one block of this city, for instance, property owners are required to pay five times the normal rate for fire insurance because of the presence of an old, unused building, which if ignited would spread flames that likely would destroy several other adjoining buildings.

In the elimination of these firetraps, there is also an opportunity to provide a little employment for some of Escanaba's jobless. A campaign to destroy these nuisances would be an appropriate one.

PULLMAN REVENUES

TODAY, the sleeping car, running between Marquette and Chicago, will make its last trip with Trains 101 and 102, its elimination being caused by the lack of patronage for this service. Sometime ago, the Chicago-Iron River sleeper was taken off. This will leave only two Pullman cars, known as the Ishpeming and Escanaba sleepers, coming into this section of the peninsula over the North Western railway.

Like the railroads, the Pullman company is feeling the harmful effects of reduced rail travel. According to figures in the Pullman News, magazine published by the Pullman company, the traveler who pays the hotel-like accommodations that are provided in the sleeping car should not feel that the company is making exorbitant charges.

The average net revenue, or profit., on each passenger carried in the Pullman company's sleeping cars in 1931 was only 13 cents. The average net revenue from each Pullman car per day was $1.08. The average journey per passenger was 430 miles, and the average journey per car per day was 379 miles. In other words, Pullman News states, the Pullman company received one cent profit for each 33 miles a passenger was carried or a little over one quarter of a cent profit for each mile a Pullman car traveled.

YOU MAKE YOUR OWN INSURANCE RATES

AUTOMOBILE insurance rates are up to the man behind the steering wheel.

Until the American motorist drives more carefully, thus decreasing the number of automobile deaths and injuries, he is going to face high rates.

James A. Beha, General Manager of the National Bureau of Casualty and Surety Underwriters, a rate making organization, commenting on the usual unfavorable public reaction to an increase in insurance rates, calls attention to certain significant facts:

Casualty insurance is a form of business where the buyer makes the price the seller may charge. The policyholder, in other words, makes his own rates no matter whether it be automobile, burglary, personal liability or any other form. When the ratio of losses to premiums mounts, the rates rise. When it drops, they go down. All the companies do is to combine the results of their dealings with the policyholders, determining by that process what the premium charge shall be.

It follows, therefore, that so long as the motorist of the United States continues to increase the accident record, he must continue to pay more and more for a vital protection. The nation, the states and cities may build modern highways; they may install effective signals and seek for absolute enforcement of traffic regulation, yet in the last analysis they can accomplish very little unless the driver does his part.

It is up to the man behind the steering wheel.

ANOTHER NORRIS REFORM

SENATOR GEORGE W. NORRIS put through Congress two important and spectacular reforms this year—the lame duck amendment and the law reforming the use of injunction laws. Now he is pushing still another reform, which is greatly needed but which lacks the elements of popular appeal that the other two had.

The new one is a move to deprive the federal courts of jurisdiction over much litigation which arises when plaintiff and defendant in a civil action live in two different states.

That sounds excessively uninteresting, perhaps. But it is important. A great corporation, for instance, often incorporates in a state other than the one in which it does its business, so that it can throw litigation into the federal courts. Since federal court litigation is expensive this gives the corporation an immense advantage when the ordinary citizen brings a legal action against it. Senator Norris' bill deserves to pass.

Most wives dispute the statement that a woman stops hunting for a husband when the engagement is announced.

A New York peanut magnate said the elephant was his favorite animal. Just for spite, monkeys ought to go on a peanut strike.

French socialists are accusing the government of advancing millions to banks and neglecting the common people. News from Washington to Paris must travel fast.

GERMANS REPULSED

On April 22, 1918, fighting of great intensity broke out again between the British and the German troops opposing each other on the Lys sector. German attacks, in the main, were repulsed.

Reports that an early peace would be signed between Rumania and the central powers were current in western Europe. Rumania had been virtually a noncombatant since Russia's collapse.

Guatemala announced that it considered itself in the same position as the United States in the war. This amounted to a virtual declaration of war on Germany and her allies.

German losses since the beginning of the war were placed at 4,456,000 men by Karl Bliebtreau, German military statistician. This figure was more than double the correct amount, according to allied statistics, and observers in France and England were at a loss to understand it.

Permanent losses, according to German casualty lists, were not more than 1,700,000.

CHAPTER XX

"YOU'VE got plenty of time, miss." That was Simon, grinning at Susan and helping her out of the car.

"Thanks. You did that beautifully," she told him, feeling conspicuous with her armful of flowers. She went to sit on one of the benches outside of the station. Idly she noticed a girl in white flannel with a great Russian wolf hound on a leash, pacing up and down. There was something familiar about the set of the beautiful little head under the rakish, white hat. When the girl turned her profile Susan knew her at once. It was Denise Ackroyd. Deliberately Susan looked the other way. She could not quite forgive that girl for having interrupted her and Bob Dunbar at luncheon. The old pain began to throb in her breast.

"I was so happy a moment ago," Susan thought resentfully. "Why need she remind me of him? I was trying to forget."

Irresistibly her eyes were drawn back to the straight, graceful figure. At that moment Denise's gaze met hers. She bowed frigidly and moved away.

"I wonder if her family know she goes around with the Strinskys' crowd?" Susan reflected, thinking disdainfully of that sordid menage to which Ben had introduced her. She buried her face in the roses as the train roared into the station.

Susan found herself a seat in an almost empty coach and through the window caught a glimpse of Denise casually embracing a tall, blond young man, carrying golf sticks. Unaccountably her heart lightened. In the back of her mind all this time, unacknowledged, had lain the fear that Denise might be the unnamed charmer in Bob's life. It did not seem so hard to lose him to someone she had never seen. A real flesh and blood rival was more terrifying. "Perhaps it isn't true," Susan thought.

She wondered where Bob was and when he was returning. How strange that he had not even written her a line! She had watched the mails day after day until pride had come to her rescue. Then the dream had died and more than one night her pillow had been wet with tears.

* * *

SHE dismissed all this now resolutely and began to think of other things—the house she had just left and her employer with his lean, ascetic face and quizzical eyes. Surely Ernest Heath had everything to be desired—wealth, position, friends and that beautiful house and garden. She could hear herself describing the place in detail to Rose or to Aunt Jessie. Aunt Jessie would sniff at what she called "fol-de-rols," but she would be impressed just the same.

However, it was Ray Flannery who first heard the story of Susan's visit.

"My eye! Flowers, where are you going with that girl?" Ray shrilled, meeting Susan in the hall.

Susan turned a blooming face. "Aren't they lovely?" she asked. "They're from Mr. Heath's garden. I had to go out there to take dictation. He's laid up."

Ray whistled softly. "Getting a stand in?" she inquired. "I'll bet the missus didn't pick those for you."

Susan said with dignity, "One of the maids did. Mr. Heath told her to."

Ray whistled. "One of the maids! My hat! How many do they have and what kind of a place is it?"

"It's—oh, it's beautiful!" said Susan, eyes shining. "It's out in the real country. There's every kind of bird you ever heard of—"

Ray chortled. "Wouldn't you think they'd want to live on Lake Shore drive or somewhere like that? Wouldn't you think they'd have a duplex up near the park? How anybody can see that country stuff gets me!"

"It's lovely," Susan told her. "You couldn't have a garden if you lived in a duplex apartment."

"Who wants a garden?" Ray demanded. She had followed Susan into the office and draped herself gracefully over a partition. "Me, I'd have a standing order at a florist's for orchids or maybe gardenias."

Jack Waring interrupted them. "Sounds like your line, sugar," he said impudently. Ray made a saucy face at him.

"You know me, old thing!" To Susan she said, "See you later. Had your lunch?"

Hastily Susan said, "I've got so much work to do I'm going to have a sandwich sent up." Ray departed. Curiously Waring gazed at Susan.

"The boss must have been feeling better," he hazarded. Susan returned his look with utmost candor.

"No, he wasn't really," she explained. "He looks miserable. But he was so nice. He told Simon to wait and had all these gathered for me. It was sweet of him, wasn't it?"

* * *

WARING agreed gravely, keeping his thoughts to himself. He had learned several things in the last month or so about this girl. Cynic that he was, he had discovered that Susan was to be taken at her face value. What she said she meant and what she seemed to be she was. It was startling but true. Jack Waring had not understood that at first. Now he was a little ashamed of his earlier attitude.

Susan began to wish Waring would go. He made her nervous, sitting there drumming on the desk with his well manicured fingers and eyeing her with that speculative gaze. She put away her hat, thrust the flowers into an umbrella stand and flipped open her desk. The man smiled wryly, recognizing signs of dismissal.

"Sorry you're so busy," he said smoothly. "I wanted to tell you about meeting an old friend of yours."

Susan had slipped a sheet of paper into the machine. Her eyes, intent on her work, raised to his for an instant.

"Old friend of mine? Really? Who is he?"

"Listen to her," the man teased. "For all you know it might have been a girl."

Susan laughed, embarrassed. "I know," she said, "but there was something about the way you said it that made me think—"

"It's all right," he told her. "It was a man and he was very much interested to know what you were doing."

Susan waited for him to go on. She thought impatiently that he was being rather silly. Why so much secrecy?

"Don't you want me to tell you about it?" Waring was laughing at her openly now and the girl lifted her great, luminous eyes to his own in wonderment. Quietly she said, "Yes, very much. Please go on."

* * *

SHE was scarcely prepared for the name he uttered nor could she restrain the warm color that flooded her cheeks.

"It was young Bob Dunbar," Jack Waring said. "And he was asking for you."

"Bob Dunbar?" As in a dream she answered.

"Yes. The old man wants some sort of Elizabethan shack out at Half-Day, you know, and Heath told me to run over and give him a line on it."

"No. I didn't know." Outwardly Susan was composed, but that throb of her blood told the tale.

"He's a handsome devil, isn't

WHEN I COME HOME

When I come home tonight,
May no one find
My heart, my laugh, less light,
My lips less kind.
The day has had its care,
Its stratagem;
For some a frown I wear—
But not for them.

When I come home again
At eventide,
May no one find me then
Dissatisfied.
The day had rivalries
And hurt and hate,
But I must leave all these
Outside my gate.

When I come home at eve
The last lone mile,
May I not make them grieve
But make them smile.
The day had hills to go
And vales to roam,
But they must never know,
When I come home.

A unique and highly useful machine has been installed at Hanrahan Brothers' store is the new power meat slicer. With the machine, ham, bacon and other boneless meats can be sliced from one forty-eighth of an inch to one third of an inch. Sixteen different thicknesses of slices can be made by the machine, thus making it unnecessary to use the knife at any time or to handle the meat with the hands in any way.

TO INVESTIGATE COUNTY COSTS

Marquette Supervisors to Seek Reduction of Taxes

Marquette, Mich.—A complete and searching investigation into costs, activities and methods of administration of every county office and department for the purpose of paring the tax burden to the bone was called for in a resolution adopted unanimously yesterday by the Marquette county board of supervisors.

The investigation, a detailed report of which, with recommendations, must be in the hands of the board not later than July 1, 1932, will be made by a committee of eight men, including five county supervisors and three bankers, none of whom is connected with any county office or department. Supervisors appointed to the committee by F. E. Keese, chairman of the board are Charles J. Stakel, North Lake, chairman; H. E. Perkins, Big Bay; John Stenglein, Marquette, H. S. Nightingale, Negaunee, and Ray Sundblad, Ishpeming. The others named on the committee are E. L. Pearce, Marquette; G. Sherman Collins, Negaunee, and Charles H. Moss, Ishpeming, all bankers. The group will be known as the "county budget committee."

Requested By Stakel

The resolution asking for the special committee and providing for the investigation was introduced by Charles J. Stakel, chairman of the county board's committee on finance and taxation.

In its original form, the resolution proposed that the committee of five supervisors be instructed to call into its meetings "any other person or persons, not members of the board of supervisors, when deemed necessary." On motion of M. J. Sherwood, Marquette supervisor, however, this was amended to provide for the direct appointment of three persons, not members of the board, to be members of the committee and to assist and advise the supervisors in the inquiry.

"It is my intention," said Mr. Stakel, in presenting his resolution, "that this committee include every office and department of the county in its investigation. Until last year the chairman of the finance and taxation committee was expected to appear before the county board at its annual meeting and be prepared to submit a complete budget for the coming year, covering all county expenditures, salaries, departmental estimates and tax levies. This was an unfair responsibility to place upon one man. Last year, at my request, a budget meeting of the regular annual meeting in October. This proved decidedly effective in paring down our budget, but we did not, in my opinion, go far enough.

Must Cut Everywhere

"I believe that under existing conditions we must cut expenses more than we have. We must cut down everywhere it is possible and it is not too early to begin an investigation to find out where and how much we can cut.

"New county officers will be elected next fall and I believe it is fair to those who desire to be candidates to let them know, as soon as possible, what we intend to do about salaries and appropriations for county offices."

Mr. Stakel stressed the point that the purpose of his move was to get underway immediately a complete study of all county affairs. The investigation is not intended for any particular department or branch of county government, as emphasized, but must include every office, department and commission that derivse all or any of its income from taxation.

Text of Resolution

The resolution follows:

"Whereas under existing industrial conditions all persons, especially taxpayers, are finding it extremely difficult to meet the necessary living and business expenses, which conditions demand of this Board that it exercise the greatest care in authorizing expenditures of County funds and inorder that this Board may act intelligently, fairly and justly in the matter of salaries and other financial demands made upon the public, it is necessary to have a complete survey made of the various activities of the County supported in whole or in part by monies raised by taxation.

"Now, therefore, be it resolved that a committee be apponted by the chairman of this board consisting of five members of this board, to be known as the "budget committee"; that said committee is hereby authorized to and shall investigate the activities and manner of administration of each and every office and department which is maintained in whole or in part by monies raised by taxation, making a complete and detailed report to this board with advice as to changes, if any, in method or manner of administration which may tend to greater efficiency or economy, of each activity or department, giving the work performed by it, its income, the number of persons therein, the amounts paid for salaries and for other purposes and accompany such report with the recommendation of said committee as to the amount which should be contributed from tax funds toward the maintenance of each such department.

"The committee, as appointed by the chairman of the board, is also to be supplemented by appointment to the committee by the chairman of of the board of three citizens not members of the board of supervisors to act as advisors.

"And, further resolved, that said committee be urged to make and complete such survey, report and recommendation and file same with the chairman of this board not later than July 1, 1932."

AMUSEMENTS

Although he is still in his twenties and has been in pictures only two years or so, Philip Holmes has to his credit parts in 15 movies, including his most recent one, "Broken Lullaby," which is showing at the Delft Theatre today.

Holmes has a heritage for acting, gained from his distinguished father, Taylor Holmes, who has been a favorite actor of the stage for many years, and, at less frequent intervals, of the screen.

Young Holmes was born in Grand Rapids, Mich., on July 22, received his early education in that city and in New York, then spent five years studying at Trinity College, England, and also at a school in Paris, France. He completed his college studies at Princeton University, and while there, about three years ago, got his first chance in pictures when Frank Tuttle, Paramount director, was filming "Varsity." The Princeton campus was chosen as the locale for many of the scenes in this picture, and Holmes, being a member of the Princeton Triangle Club, student dramatic association, was drafted for a minor part in the picture.

MICHIGAN VOTES ON PROHIBITION

Petitions Place Five Special Questions on Ballots

Lansing, Mich., April 21.—Five questions at least are certain to be submitted to the voters of Michigan at the November election. Forms of petitions for four other proposed constitutional changes have been approved by the Department of State, but sufficient signatures have not been filed with the department as yet, to insure places on the ballot.

Three of the questions will be placed on the ballot by mandate of the 1931 legislature. Two of the questions involve changes in election laws and the third is on the subject of pardons for those convicted of first degree murder.

The oleomargarine bill, adopted in 1931 and prohibiting the use of colored oleo, has been held in abeyance by the filing of referendum petitions and will be on the ballot for approval or disapproval of the voters.

The first proposal to change the constitution, instituted by petitions, calls for changes in the prohibition statutes.

Accident Fatal To Elmer Green

Elmer Greene of Detroit, formerly of Escanaba, passed away in that city Sunday from injuries sustained when he was hit by an automobile Saturday. Mr. Greene was walking when he was struck by a car. The body is being sent to Ashland, Wis., where funeral services will be held on Friday.

Mr. Greene is survived by his widow and two children. He was the son of Mrs. Rufus Spalding, who is a sister of Mrs. John P. McColl of this city.

Greater London is now reported to have 8,203,000 inhabitants.

Uniform Automobile Regulations Sought

Lansing, Mich., April 21.—New Jersey is the latest state to be willing to extend complete reciprocity to other states in laws for passenger and commercial automobiles. A bill authorizing full reciprocity has just been adopted by that state. Twenty four other states have power to extend either complete or partial reciprocity.

All states interested in this subject are to attend a conference in Washington May 5. Michigan Department of State takes part in these conferences under authorization of a resolution adopted by the 1931 legislature, and a report is to be made to the 1933 legislature suggesting several changes whereby Michigan may reciprocate with other states in securing uniform motor vehicle registration and traffic laws.

A Tune From the Past

It was a tune that isn't recorded in written music. And as white-bearded Captain Spicer played it, the melody seemed to enthrall his fair young listeners at Richmond, Va. He's one of the folk musicians of old Virginia who may take part soon in a program of folk music of a former day. The Captain was playing "The Hog-Eyed Man" when the cameraman snapped this picture.

Baby Girl Rides Tornado; Found Miles From Home

Lloyd Butler, 33, farmer living near Birmingham, Ala., was fighting to keep the door closed when the tornado that devastated a wide stretch through four southern states, swooped out of the south. His wife, holding Jewel, 22-months-old baby, with their other two small daughters clinging to her skirts, was behind. Then the house collapsed. That's the last thing Butler remembers. Puzzled farmers found Jewel nearly 10 miles away. They named her the "orphan of the storm." But a relative recognized the baby and got word to the parents who were in the hospital. The two other daughters were killed. How Jewel rode the storm remains a mystery. Picture shows Jewel, battered but cheerful, with the Butlers. They were unable to attend funeral services for the two girls.

"Cleanest Baby"

You can't dispute the fact that little Antonia Morales, shown here, scored a "clean victory" in a contest with numerous other children in the infant schools of Barcelona, Spain, for she was awarded the prize as "the cleanest and best-kept child." The contest was in connection with a campaign for personal hygiene.

Scores At Bowie

Hank Mills, 16-year-old jockey who has ridden more than 100 winners since last June, scored his first victory in the east recently on F. A. Griffiths' Aldershot at Bowie, Md. Mills, who comes from Montrose, Colo., rides for the Wheatley Stables of Ogden Mills, secretary of the treasury, and Mrs. H. C. Phipps.

HIGH SOCIETY!

Right on the brink of great things, Helen Knott, once a belle of exclusive New York City society, and Chester Towne, scion of an aristocratic Florida family, are shown trying a new step on a roof top. Both abandoned their social activities to become professional dancers and now are starring as a team in a Philadelphia hotel, where this picture was taken.

"Nobody home" read a sign on the locked door of the Collingswood, N. J., police station after Mayor Joseph H. Van Meter suspended the entire force of 22 men in a local political dispute. When the police walked out they took with them the keys to the station house and keys to traffic booths at several busy intersections. They were reinstated the next day and charged that the mayor's action was part of his campaign for sheriff.

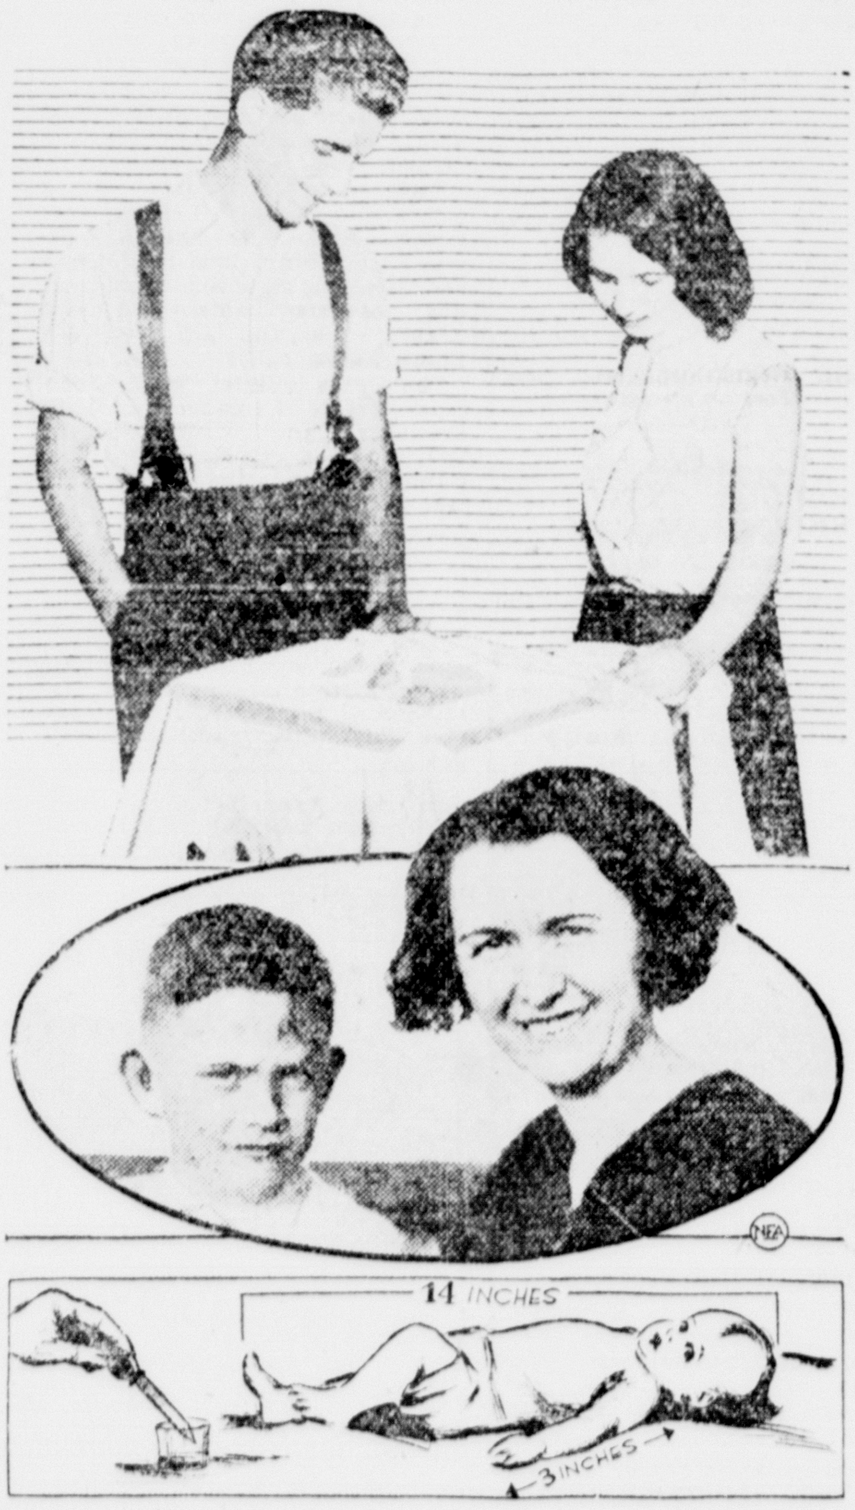
Mother of 27 Gets New Chance for Prize

Although she had given birth to 27 in her 22 years of married life and was well in the lead in the strange Toronto, Can., baby marathon, things looked pretty dark for Mrs. Florence Brown, 42, shown above with 12 of her children. A bill had been introduced in the provincial legislature to set aside the will of the late Charles Vance Millar, eccentric millionaire, in which he had provided $500,000 for the Toronto mother bearing the most children in the ten years following his death. It was proposed to give the money to Toronto University. But amidst cries of "shame" and "disgrace," Colonel W. H. Price, sponsor of the measure, withdrew it during a tumultuous Parliament meeting and now Mrs. Brown seems again well on the path to win the fortune.

She's Hollywood's "Russian Menace"

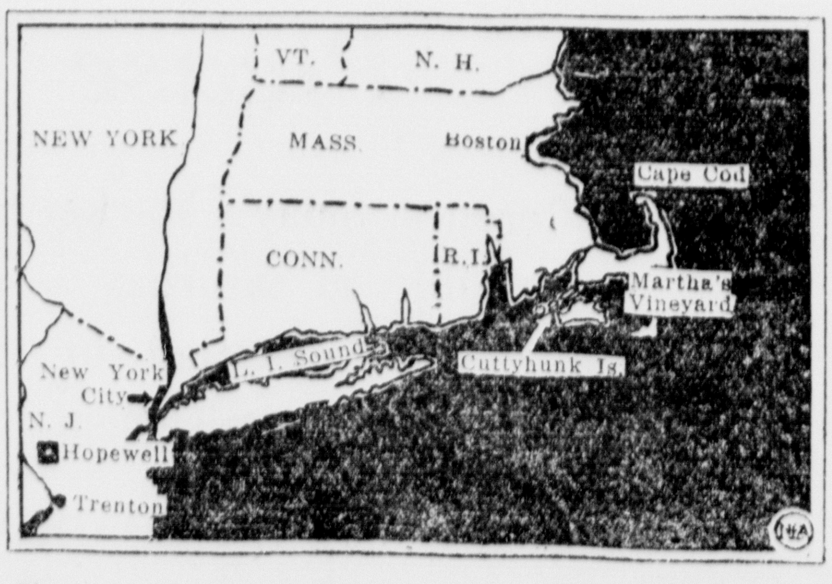
The blonde beauty of Anna Sten, 22-year-old Russian film star, soon will grace Hollywood. She first was noted in an imported picture, "The Brothers Karamazov," and then with Emil Jannings in "Tempest." An American cinema producer got on the cables—and she'll head for this country soon. She has been in pictures since she was 15.

One Pound Baby's Title As Smallest Disputed



No sooner had the one-pound son of Mr. and Mrs. William St. John of Kansas City apparently clinched the flyweight championship of the world than Mrs. Karl Kaut, also of Kansas City, rose to challenge his rights. The tiny infant, only 14 inches long, with three-inch long arms, is fed by an eye-dropper and apparently is getting along all right. Top picture shows the father and Mrs. St. John's sister, Miss Margaret Hammer, looking at incubator in which the one-pound baby lives. Below is Mrs. Kaut and her son, James Irwin Kaut, 8, who weighed only three-quarters of a pound at birth. She thinks he was the smallest baby on record to survive.

Scene of Lindy's Mystery Flights



The island-dotted waters about Martha's Vineyard off the Massachusetts coast, above which Col. Charles A. Lindbergh flew on two mysterious missions, are clearly indicated on this map. An unusual concentration of Coast Guard vessels in this region gave rise to new rumors that the kidnaped Lindbergh child and his abductors were in the vicinity.

Communication

Providing Employment

To the Editor of The Press:—A considerable number of plans have been proposed in the past few months, as a means of providing employment for the idle men of Escanaba, none of which have met with the degree of approval to allow them to be carried out. Public work, which has been used up to this time as a means of allowing the employed to at least earn a living, is nearly exhausted and some other means of employing this labor and providing necessary funds, must be considered.

Why not consider the idea of paving all of the unimproved streets in the city of Escanaba and paying for this work by a bond issue that would run from 20 to 25 years? Such a plan is legal and could be carried out without imposing a heavy burden upon the taxpayers, whose property would be improved. By spreading the payment of the necessary bond issue over 20 or 25 years I believe that the payment of the annual installment and interest charges could be held to between $10 and $20 a year.

Unquestionably this is not a proper time to float a bond issue to be purchased by the regular investment houses, but I believe there is enough idle capital in this city, seeking safe and profitable investment, to take care of any bond issue that would be necessary to carry out this plan. Every street bond issue floated in this city in recent years has been gobbled up by local investors in record time. Certainly a safer investment could not be provided and the regular going rate of interest would provide a profitable investment for those who have idle funds.

If this plan is carried out, only local labor would be employed and work on five or six streets would be in progress at the same time, giving employment for a considerable period for 500 or 600 men.

When the work is completed the people of Escanaba will have something definite to show for their effort in behalf of the unemployed; we will have the best paved city in the northwest and our city will be in a position to attract new residents and new industries, as never before.

I am proposing this plan merely as a thought for the consideration of the people of Escanaba and all I ask is that careful thought be given to this matter before criticizing it.

Probably the first reaction of many to this plan will be—I am out of work—I have little money—I can't afford it. But just stop and reflect—the first payment toward the bond issue and interest would be made payable in 1933. Certainly this old United States of ours is going to come through this emergency—Certainly our own city of Escanaba is also going to come through and it is also certain that all of us are going to have our jobs back and our earning power restored. When that time comes you will be happy that you have made your property more valuable and at the same time aided in meeting this unemployment emergency—for such it is and must be met immediately.

Respectfully submitted,
A Tax-Payer.

Junior And Senior High Students Have Music Assemblies

The students of Escanaba high school were entertained by the Boys' Glee club and the high school orchestra under the direction of R. P. Bowers at the weekly assembly on Thursday morning. The Boys' Glee club sang two numbers, "That Wonderful Mother of Mine," Edward Lucas singing the solo parts, and "The Winter Song." Orchestra numbers were "Dramatic Overture," Keler-Bela, "The Glow Worm," Lincke, and "On the Beautiful Blue Danube," a group of waltzes from Strauss.

This afternoon at 2:10, the Junior high school orchestra will be assisted by other music groups of the Junior high school in presenting a musical program in the William W. Oliver Memorial auditorium.

The program will open with two numbers by the double string quartet directed by Mr. Karas, "Air," by Pochan, and the "Volga Boatman's Song," a Russian air.

Miss Marian Cook will sing a vocal solo, "Roses of Picardy," by Wood, with orchestra accompaniment.

Numbers by the brass quartet under the direction of John Edick will be "Believe Me If All Those Endearing Young Charms," old Irish air; "Rosary," by Nevin, and "Santa Lucia," Neopolitan air.

Orchestra numbers include "Starry Emblem," march by Engel, "Roses and Orchids," waltz by King with Regina Bergman conducting, a marimba and vibra-harp duet, "Perfect Day," by Bond, with Marie Donohue and Robert Peterson playing and orchestra accompaniment, "Belle Isle," waltz by King, wtih Miriam Lund conducting, and "Fidelity," march by King.

Members of the double string quartet directed by Mr. Karas are: Francis Kallin and Pauline Johnson, first violins; Mae Fredenberg and Geraldine Haunsen, second violins; Josephine LaMere and Clara Arnson, violas, and Jack Foster and Frank Karas, cellos.

The brass quartet which John Edick directs is composed of John Frechette, first cornet; George Strom, second cornet; John Banks, trombone, and Allen Beck, baritone.

No Interruption In Transportation Service Expected

That there will be no interruption of transportation service between Escanaba, Groos and Wells, when the Escanaba Traction company abandons its operations, was indicated by developments yesterday.

A group of Escanaba business men is contemplating the establishment of a bus service, and it is expected that various details of the organization of a company will be completed by tomorrow. Confidence was expressed that the busses would be available for service when the traction company suspends operations May 1, and it was intimated that if a few days' delay should occur in the delivery of the necessary equipment that the street car company would maintain the service the extra period.

English Princess 6 Years Old Today

London, April 20 (AP)—Princess Betty, who some day may be England's second Queen Elizabeth, will celebrate her sixth birthday tomorrow, and the important thing to keep in mind is that she will be "really grown up."

The golden haired child of the Duke and Duchess of York will celebrate her attainment of "majority" with a tea party, at which she will act as hostess to her elders in the royal family.

This will give her an opportunity to show others how grown up she is, and is particularly significant because she has been trying to get that point across for some months now.

Hurt Tourist Trade

Marquette—Telling the members of the Better Business bureau that the Chamber of Commerce would not assume any blame for an unprofitable tourist season, if the city of Marquette adopts a Central Standard time schedule, Frank H. Heath, secretary-manager of the Chamber, urged business men to see that people who favored the daylight saving plan cast their ballots in the informal vote now being taken.

"So far as our office is concerned," Mr. Heath stated, "fast time means a delay in getting at our morning mail and in general disrupts the routine of the office. But, we believe in being unselfish. If all of the other cities and tourist communities of the upper peninsula are to be on fast time and Marquette, as one of two—the other being Menominee—adopts central time, it is going to hurt our tourist season business and the residents who usually take care of many tourists in their homes by renting rooms, will find few seekers."

Salaries Reduced

Negaunee—Alderman A. William Koski, of the Fifth ward, one of the veteran members of the city council, was appointed mayor pro tem by Mayor Harry T. L. Collins at the organization meeting Tuesday evening.

The board of public works recommended a nine-hour working day for all city employes and it is expected that city workmen placed on a monthly salary basis, instead of a day wage, will not be given overtime pay when it is necessary that they work a few hours on Sunday or a holiday. Instead, they probably will be given a day off to make up for the extra day they worked.

In yesterday's report of the council meeting the appointment of Clarence E. Lott as city attorney and William Heggaton as shop foreman, were ommitted. Mr. Lott will receive a salary of $125 per month instead of $150 per month. Mr. Heggaton who was paid on a day basis, will receive a monthly salary of $150. James Battoni, who was named coal wheeler, will be paid at a rate of $95 per month, instead of $4.50 per day, as stated yesterday.

Kingsford Improving

Iron Mountain—E. S. Kingsford, son of Mr. and Mrs. E. G. Kingsford, of this city, who was seriously injured Sunday afternoon when he fell from a tree near his hunting camp at Basswood, in Iron county, was reported at 2 o'clock this afternoon as somewhat improved from yesterday, but still not out of danger. He is at the Iron Mountain General hospital.

X-rays taken yesterday afternoon by Dr. W. H. Alexander, attending physician, revealed fractures of five lower ribs on the left side, and of five of the processes, or lateral tips, of the vertebrae in the spine.

School Forests

Iron Mountain—One of the four school forests to be added to the upper peninsula of Michigan this year will go to the village of Kingsford, in Dickinson county, according to J. G. Wells, Jr., assistant state county agent leader. Two of the new forests will be planted in Marquette county—at Michigamme and the National Mine, and the fourth at Amasa, in Iron county.

Salary Reductions

Iron River—The board of education last night re-engaged the teachers of the Iron River school district for the 1932-33 term, but at salary reductions ranging from 18 to 23 per cent.

The board said that the drastic salary cuts were necessary because of the economic stress, and that teachers should shoulder part of the burden which the taxpayers have carried during the past year or more.

Among teachers who will not return next term is H. L. Murr, band director, whose case has been discussed at previous meetings of the board. The omission of his name from the list was expected.

The teachers re-hired will not be definitely assigned classes and schools until a short time before the fall term opens.

Human Salvage

Menominee — "Salvaging Human Resources" was the subject of an interesting address presented to the Menomee club at its regular meeting held Tuesday noon at Hotel Menominee by W. J. Peacock, head of the department of personnel at the Northern Paper Mills of Green Bay. He is a member of the National Safety Council and the only director of the organization in this section of the country.

Industrial Safety, now in its twenty-first year of organization, has gradually come to a man-sized point of view regarding its aims. Salvaging human resources bulks even more than salvaging property or machinery, for, as Andrew Carnegie said, 'You can replace buildings or equipment if you have the human ability and enthusiasm. Human beings provide organization, the most essential factor in any business.

Chippewa Plans Fair

Sault Ste. Marie—The annual Chippewa county fair will be held September 20, 21 and 22, it was decided at a recent meeting of the new officers of the Chippewa County Agricultural Society who will be in charge.

President of the society is W. G. Tapert, first vice president is John S. Donnelly, second vice president is Robert Sutton, treasurer is Herbert E. Fletcher and secretary is E. S. Royce.

Budget Revised

Iron Mountain—Rescinding its former action which would have resulted in an outlay considerably more than the amounts provided for the fire and police departments in the city's budget for the fiscal year 1932-33, the city council last night adopted a new resolution, providing for the addition of 12 firemen and three patrolmen, but on a pay basis within the budget provisions.

Mayor R. F. Dundon this morning called a meeting of the police and fire commission for 4 o'clock this afternoon, to name the new firemen and patrolmen.

The slate of new members of the departments has, it is understood, been determined by Mayor Dundon and Aldermen Aimone, Giacobina, Lindquist, Broullire and Mongrain, with reference to ward lines and an effort to divide the patronage fairly between them. Their recommendations will be given to the police and fire commission composed of the mayor, Alderman Ed Lindquist and Charles Symonds.

Water Board Appointee

Iron Mountain—Frank Tondin, 424 Margaret street, and employed at the Buchanan-Villemur furniture store and undertaking parlor, was unanimously elected a member of the board of water works commissioners by the city council last night, to fill the vacancy created by the expiration of the term of Ralph Bruno. The appointment is immediately effective.

Tondin's name was submitted by Mayor R. F. Dundon. His election to the board, being suggested by the mayor, is expected to give Dundon two administration members on that group, the other being Otto B. Olson, the mayor's first appointee.

There are five members of the board. The other members are W. J. Cudlip, president, Cyril Nault, secretary, and Gust Rahm. Cudlip, at the last regular meeting, was named president to succeed Nault, and Nault succeeded Bruno as secretary.

Will Cut Budget

Menominee—More than 1,500 persons tried to jam their way into Menominee opera house last night to hear Mayor Albert G. Cherney read an inaugural address recommending salary cuts for city officers which would effect a yearly saving of $18,750.

Hundreds of persons were unable to find standing room in the opera house. All available seats were filled by 7:30 p. m., and the curtain was not raised on the new mayor and council until after 8 p. m.

Members of the former municipal band donated their services for a short concert before the meeting.

In the course of his inaugural address Mayor Cherney recommended the following action to the council to effect economies which will pare down a deficit which the mayor estimates would reach $24,000 at the end of the city's fiscal year unless drastic cuts are made.

For Buffet Supper

A buffet supper which is extremely easy to prepare consists of club sandwiches, plenty of relishes and some sort of deep dish dessert. Arrange the sliced chicken, tomato, lettuce, bacon and salad dressing on a table and put the electric toaster on one end. As fast as the toast is made, give three slices to each guest and let them make sandwiches themselves while the toast is hot.

In spite of centures of experience and the gradual control of disease after disease, a large proportion of our population still lives in the Dark Ages in so far as personal care is concerned.
—Ray Lyman Wilbur, secretary of the interior.

Theatre Shows Renewed Interest In Tabloid Shows

BY MARK BARRON

New York, April [illegible], (AP)—The theater has suddenly adopted a fetish for miniatures. Tabloid shows are the newest style, one presaged by the recent revival of interest in vaudeville.

When the more pretentious of broadway motion picture houses found their business threatened by the overnight popularity of all-star vaudeville bills, they sought a way to bolster their presentations.

One cinema palace bought the rights to the revue of last season, "Three's a Crowd," and presented it in tabloid form, retaining only the best numbers. The show was so well liked in its reduced form that there are now plans to offer tabloid versions of "The Little Show," "Girl Crazy" and other revues. A vest pocket edition of "Girl Crazy" already has been playing in the middle west.

Not only the film impresarios, but also legitimate producers are to try their hand at these "quickies." Flo Ziegfeld is to take his "Smiles," "Rio Rita," several of his "Follies" and offer tabloid versions of all of them on the same bill. Harry Richman will have the leading role in this, mayhap with his old partner, Frances Williams, returning to assist him in their comicalities.

Ziegfeld has his revival of "Show Boat" in its entirety ready for rehearsals. Charles Winninger, Norma Terris and Helen Morgan have been signed for their original roles. Attempts are being made to sign Lawrence Tibbett for the part first played by Howard Marsh. The revival will be offered at $2.50 top price.

Milne Drama

Pauline Lord's second return to the stage this season is in a Milne revival which is spoken of in the programs as "this is Miss Lord's spring vacation."

It is one of the better and more serious plays of the able A. A. Milne, "The Truth About Blayds." True it does leap over into precious whimsy at odd moments, but for the most part it is content to tell a straightforward story and let it go at that.

The theme is that of the famed and honored man who dies, and then it is discovered that he was nothing more than a scoundrel. Blayds was supposed to have been a great poet, but the truth was that he was publishing as his own poems that had been willed to him by a departed friend.

As it was in the case of the first production of this play, O. P. Heggie does a bit of lawful larceny and takes the show as his own in the part of Blayds.

"Rain," the play which made Jeanne Eagels immortal, is making what must be its thirteenth return visit to broadway. Glenda Farrell, of the movies, is playing the part of Sadie Thompson.

It was first thought that Helen Menken would be in the role, but she didn't accept. Miss Menken owns the original Sadie Thompson costumes which were given to her by Miss Eagel just before her death.

Road Prosperous

Datharine Cornell reports that she finds the road in prosperous condition, and that "The Barretts of Wimpole Street" is having a more than satisfactory tour.

At a matinee in Pittsburgh she played to $4,219, and at a matinee in Philadelphia there were 252 standees. Her best business was during holy week in Philadelphia when she played to $33,657, which is about 10,000 more than even the most successful dramas usually attract there.

When she finishes her current tour, Miss Cornell will return to New York to begin rehearsals in Sidney Howard's new play, "The Alien Corn." He is now on his way to New Hampshire to put the finishing touches to the manuscript. After that play she will appear in a French Drama, "The Rape of Lucrece."

College President Praises Teachers

Kalamazoo, Mich., April 20. (AP)—The home, the church and the community are looking to the teachers to carry the brunt of a bankrupt civilization, President Allen Hoben of Kalamazoo College said tonight in an address before the Michigan Congress of Parents and Teachers, which opened its fifteenth annual convention here today.

"The loyalty of the teachers is severely taxed," said Dr. Hoben. "Their work is more difficult than ever. The children themselves are more to be pitied than condemned. They have been born in an era without form or comeliness; There is no behavior pattern to make life more secure. In this moral choas, the sharp stimuli of commercial amusements, run only for profit, play upon our children and young people."

Miss Cornell has no intention of bringing "The Barretts of Wimpole Street" back to broadway, although she may revive it sometime in repertory.

Somebody found a rock in Connecticut the other day 277,000,000 years old. Well, they certainly were a long time finding it.

Play, "Katinka," To be Given by Eighth Graders

"Katinka," or "The Indian's Trust," a play, "The Quest of the Pink Parasol," an operetta, and "Ben Hur," an interpretative song by a group of thirty boys, will be presented the afternoon of Friday, April 29, and the evening of Sunday, May 1, by St. Anne's school and music pupils, in the William W. Oliver Memorial auditorium, Escanaba Junior high school.

The operetta program, which has been announced, is under the direction of Sister Mary Agnella.

The play, "Katinka," is the story of a little girl, who when a babe, was separated from her wealthy and distinguished parents, during an outbreak of the Indians in Canada. The child's nurse, a faithful halfbreed Indian, cares for her and saves some of the valuables belonging to her parents, selling some and placing the child in a convent. After ten long years of anxious search, the mother, Madame St. Elmo, comes across the nurse in a forest, learns the whereabouts of Katinka or Blanche, her real name, and the child is restored to her mother in the presence of her school companions.

The play which is in four acts, will be presented by an eighth grade cast under the direction of Sister Rosalee.

The cast is as follows:

Katinka—Luella Shopy.

Nursie, a halfbreed Indian—Mercedes LaMarche.

Madame St. Elmo, a Quebec lady of wealth—Jeanette Trudeau.

Pupils of Notre Dame:
- Victorine—Anna May Mayville.
- Eleanor—Jeanette Grenier.
- Zelda—Lorraine LaCrosse.
- Onida—Genevieve Thompson.
- Estelle—Roby Cousineau.
- Bertha—Martine DeCaire.
- Augusta—Dolores Denoo.
- Louise—Bernice Herson.
- Lottie—Priscilla Beauchamp.
- Emma—Blanche St. Pierre.
- Rettie—Jane Beauchamp.
- Bessie—Catherine Harvey.
- Lily—May Hebert.
- Sadie—Ethelyn Greenwood.
- Cora—Margaret Cousineau.
- Dora—Albertine St. Martin.

The Ben Hur Chariot Race will be presented by a group of seventh and eighth grade boys in Roman costume of blue and gold, school colors, Normand Seymour, Harold Smith, Leonard Pouquette, Arthur LaFleur, Leonard Peltier, Andrew Derouin, Lloyd Trudell, Raymond Grenier, Donald DeGrand, Raymond Ethier, Richard Cousineau, Donald Guindon, Albert St. Peter, Francis Grenier, Owen Trombley, Francis Richards, Victor Guindon, Donald Cyr, Donald Belanger, Ronald Sullivan, Lyle Utt, Russell Sheverette, Kenneth Buchholtz, Francis Sovey, George Rivest, Lester Gardner, Robert Moreau, Donald Trottier.

Health Program Support Keynote Of May Campaign

When May Day — National Child Health Day was observed a year ago, the information which had been gathered by the White House Conference on Child Health and Protection was still new to parents, officials, committees, and study groups concerned with promoting the health of children. Since then the findings of the Conference have begun to be assimilated and new programs are evolving from the new knowledge gained. The keynote for May Day 1932 is, therefore, significant—"Support Your Community Child Health Program: It Protects Your Home."

In reviewing the early results thus far of the White House Conference, Samuel McC. Hamill, M. D., Chairman of the Section on Medical Service, and President of the American Child Health Association, says: "The effects of this conference will be so far-reaching that only after years have passed can the full scope of its influence be realized." The first committee report of this section to be published was that on Pediatric Education. It was based on a carefully planned, exhaustive study of the whole subject of pediatric education. "It does not," says Dr. Hamill, "present a course to qualify the man who will devote his entire practice to the care of children, but it outlines a procedure which will qualify the general practitioner—who after all, cares for the great mass of children—to serve intelligently and effectively. It lays special stress upon preventive procedures."

Already a number of medical schools have revamped their courses in accordance with the recommendations of the report, and extension divisions of state universities are planning courses in post-graduate instruction in order that the newer knowledge can be brought to the practitioner.

The report on Health Protection for the Pre-School Child shows the relatively limited extent to which well known and adequately proven procedures are being applied. But 21 per cent of all city children and but 7 per cent of all rural children have been protected against smallpox by vaccination, and with regard to diphtheria immunization but 21 per cent have been protected in urban and but 18 per cent in rural areas. "The Medical Section was convinced," adds Dr. Hamill, "that if we could at once apply, intelligently and completely, the knowledge we already possess, the health of children would be effectively protected."

Christian Science Churches

"Probation after Death" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, April 24.

Among the Bible citations is this passage (Ps. 23:4): "Yea, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me: thy road and thy staff they comfort me."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.454): "The understanding, even in a degree, of the divine All-power destroys fear, and plants the feet in the true path, —the path which leads to the house built without hands 'eternal in the heavens'."

A spring salad that will sharpen appetites and give the family its share of fresh vegetables is made from this morning's recipe received from Mrs. Albin Nelson.

Vegetable Salad

One bunch celery
One head lettuce
One can peas
Two small onions
One dozen hard boiled eggs

Either prepared mayonnaise dressing or a home made salad dressing may be used.

The home made dressing is made as follows:

Salad Dressing

Two level tablespoons flour
One-half cup sugar
One-fourth teaspoon mustard.
Mix together
One-half cup canned milk
Two whole eggs
Beat thoroughly

One-half cup vinegar, pour gradually into mixture.

Boil until thick. Thin with cream or with canned milk.

Fine Program at Jefferson P-T-A Evening Meeting

A talk by Judge of Probate Judd Yelland, the annual art exhibit, piano numbers by Miss Pearl Olson and an entertainment by Miss Laura Palmquist's kindergarten children, were included in the evening meeting of the Jefferson Parent-Teacher unit, held Wednesday at the school auditorium.

The meeting was well attended. Judd Yelland spoke on "Discipline," giving interesting phases of this important principle in the development of child character. Miss Pearl Olson, talented pianist, delighted her audience with her piano numbers, which were given an artistic interpretation and rendition. The art exhibit arranged in the various rooms of the school showed a high standard of work and won much praise from the visitors.

The kindergarten entertainment which was thoroughly enjoyable, was as follows:

Rhythm orchestra—Allegro from Sonata No. 5, Haydn.

Play Tickets Selling Fast

The ticket sale for "The Jade Necklace," mystery comedy drama which will be presented Sunday and Monday under the sponsorship of the Daughters of Isabella, and the direction of Mrs. Kenneth Wagenhauser, at the William W. Oliver Memorial auditorium, is progressing in a satisfactory manner, and indications are that the play will be enjoyed by a capacity audience.

Tickets are being sold at the Office Service company and by members of the Isabella Circle.

The Sunday performance will be a matinee only at 2:30 o'clock. The main performance Monday evening will begin at 8 o'clock.

A daughter, Ethel May, was born to Mr. and Mrs. Max Lavalley at the family home, 1110 North 18th street.

Silk Has Dull Surface

The vogue for wool, which has been worn from morning until night this winter, has laid its mark on new silk fabrics. Many are woven with dull surfaces resembling wool in a heavy weight which makes them adaptable to draping.

Wool and silk mixtures are another outstanding fabric feature of the mid-season styles. They are being widely used for the new coat dresses cut on redingote lines which are suitable for wear in town from breakfast to tea time.

A Book A Day

By Bruce Catton

When the World War came to a close, David Lloyd George was breathing forth fire and smoke at a prodigious rate. The kaiser was to be hanged, the Germans were to pay through the nose, and the victors were soon to find the world made comfortable and prosperous for them.

In that frame of mind he went to help shape the Versailles treaty, crying that Germany must pay for war damages to the very limit of her ability. It is to his credit that he never deluded himself about what that limit might be as grossly as most of his colleagues did; but he helped, nevertheless, to produce the atmosphere in which the sky-high reparations totals were fixed.

Ever since then he has been cooling off; and now, in a little book entitled "The Truth About Reparations and War Debts," he announces flatly that the world depression will not have a chance to end until reparations are canceled.

Nor is that all. If reparations are to be canceled, he says, the war debts must be canceled too; and the nations of the world must lower their tariff barriers and give a free play to international commerce.

He makes out an excellent case for his argument. Reparations, he says, and consequently war debts, have been paid so far on borrowed money—money borrowed from the United States. They cannot be paid that way any longer. But to let Germany's export trade rise to a point at which they would be paid in actual cash would mean ruin for trade and industry in all the creditor nations. Hence—cancellation is the only way of avoiding a crash of the existing economic order.

Fire Fighters To Get Decreased Pay

Further reduction of rates of pay and mileage becoming effective today have been announced by A. C. Elmer of Lansing in a letter to Julius Thorson, district supervisor. Fifteen cents per hour will be allowed for labor and five and four cents per mile.

The chart reads as follows:

Labor (Formerly known as impressed labor), 15 cents per hour; Keymen, 25 per hour; Emergency key men, $2.50 per day; Fire wardens and tower men as authorized at Lansing, at least until the budget cut becomes available. Mileage rate for assistant district supervisors, and conservation officers assigned at headquarters, 5 cents. All others, fire wardens, key men, laborers, 4 cents.

No longer will men be "impressed" to fight fires. They will be "requested" and no action will be taken should they refuse, unless in an emergency.

The local officers have been working on a list of labor availabl in each of the fire districts so that men can be obtained readily for fire fighting.

TWO FIRES

Two fires called out the Newberry men on Wednesday. A small fire in a door yard of a house south of the Sink Hole got away and required a little work to subdue it. Fire is now burning in the saw dust pile of the old Finley mill south of the Pelletier corners and will require watching.

MRS. HASE DIES

After an illness of more than a year, Mrs. Joseph C. Hase died at the family residence at 2:20 on Thursday morning. She was born in Melvina, Wis., 57 years ago, daughter of John and Augusta Nelson. The family has lived in Newberry for the past eight or ten years.

The body was taken to the Beaulieu funeral parlors and removed on the noon train on Thursday for Munising where the funeral will be held and where the family is well known.

SUIT DECIDED

M. E. Buerman in a suit against the Duluth South Shore railroad regarding a fence along the right of way east of town lost a judgement in the court of Judge Herbert W. Runnels according to the decision which has been handed down, dated April 16, 1932. The suit involved certain properties and deeds of the Palms Estate made in 1898. The suit was heard in the winter term of court, the railroad, the Grand Rapids Trust company, receivers for the William Horner company, and the state hospital commission being made defendents.

The judge ruled that no proper notice that a claim was to be filed had ever been made that therefore the suit was premature and that the suit does not comply with the rules laid down by the court. The case was therefore dismissed with costs to the defendent and interveners.

BETTER HEALTH WEEK

The committees appointed for "Better Health Week" are working hard for the success of the project. Several Munising residents listened to Dr. Garty Cleveland Meyers speak over their radios during the past week and all who heard him are anxious to hear and see him when he visits Munising May 11th under the auspices of the P. T. A. Displays of food for Better Health Week will be shown in our stores and all are urged to study the displays as a great deal of information on healthful food may be gained thereby. The children of our schools are at work making posters which will be used in advertising the program for Better Health Week, which is from May 9th to 13th. All are urged to keep in mind the program for this week and the date of Dr. Meyer's address at the Munising high.

WATROUS-COATES

Miss Louise Watrous and Representative Claude W. Coates will be married at four o'clock today at the East Congregational church at Grand Rapids, Mich. After the ceremony there will be a reception at the home of the bride's parents, Mr. and Mrs. Dwight M. Watrous, 1665 Plainview avenue. The Misses Rosella Poole, Kathleen Shingler and Elvira Krantz, teachers in the Munising township public schools, and City Commissioner George Coates, father of the groom, will attend the wedding. Also the Misses Beth and Lynn Vendein, cousins of the groom, will attend. Miss Watrous has been the Latin teacher in the Munising high school for several years past. Mr. Coates was born and raised in Munising and is a law graduate of Ann Arbor and two years ago next fall was elected as representative from the Alger district. Last year he formed a law partnership at the Soo where the couple will make their home in the future.

DEATH OF MRS. HASE, SR.

Smelt Fishing In Delta County Violated Laws

Taking smelt with nets from the Delta county streams this year was a technical violation of the law, according to the digest of the fishing laws recently released by the conservation department, but local conservation officers state that, owing to the fact that smelt runs here were unprecedented and the conservation commission had no opportunity to make a special ruling, they chose to ignore the lack of provision for smelt fishing in upper peninsula streams.

The fishing laws provide for the taking of smelt only in Charlevoix and Benzie counties and permit the use of nets which are not more than five feet in circumference and having a handle not more than five feet in length.

An official of the department expressed the opinion yesterday that in the coming year provision will be made for the taking of smelt in a like manner in the upper peninsula streams.

Practically every stream which empties into Green Bay is reported to have had smelt runs this year and according to the experience on the eastern shores of Lake Michigan, the runs will become greater each year.

Continue False Fire Alarm Case

By agreement of Prosecutor Glenn W. Jackson and defense attorney, Torval E. Strom, a continuance was granted in the case of Peter and Edmund Waeghe and Gerald and Stanley Arnsen, who are charged with turning in false fire alarms, when the case was called for trial yesterday morning. The trial was set for Monday, April 25, by Justice A. D. Alguire.

The delay in the case was granted for the purpose of permitting the prosecution and the defense to prepare their cases and secure a complete list of witnesses to be called.

That more Gladstone youths might be implicated in the case was indicated yesterday, when police officers and Prosecutor Jackson called several in for questioning. No more arrests have been made.

The specific charge upon which the four youths are to be tried is a false fire alarm turned in from Box 13 Sunday night.

Wringer Squeezes Out Tooth-Paste; Fishes Ring Bell

New York, April 20, (AP)—Double-action fly swatters—non-skidable soap — bell-ringing fishing rods—toothpaste tube collapsers--automatic oyster openers--adjustable babyfeeders.

These are among the 5,000 inventions arriving at Grand Central Palace for the fourth international patent exposition opening on May 10. All have passed the test of the patent bureau at Washington and constitute what the sponsors call the "greatest show on earth."

The new fly-swatter introduces a sporting thrill to that ancient diversion. It operates with a scissors movement and eliminates the possibility of spots on walls or furnishings. No longer can the pursuer sneak up on the fly—he must annihilate it in full flight.

The soap turns out to be a sponge-rubber mitten with a ventilated palm in which laving liquid is enclosed. The suds force their way through to the body and the possibility of a mis-step in the bathroom is out of the question.

Oysters Conquered

One fishing rod has a bell attached and can be stuck in the ground while the angler drowses. When the fish bites the rod bends forward, the bell rings and the fisherman hauls in his catch.

The present economic situation seems to have inspired the toothpaste tube collapser. H. E. Barron, of Bupo, Ill., the inventor, says the tube is inserted between two rolls turned by a small crank and out comes every last drop of the paste.

The automatic oyster opener is really the prize of the show if it does everything claimed for it by its inventor, Oscar Abbatte, of Baltimore, Md. The device is operated by means of a crank which forces a flat, spear-shaped knife between the shells of the oyster, opening 25 a minute.

The baby feeder is merely an adjustable bottle which can be attached to the crib and never eludes the reach of the occupant.

After all, bandits are crude fellows. Otherwise they would settle down in some rich community and elect one of their number to county office.

HEART ATTACK TAKES PRESTON

Former Auto Dealer Dies Suddenly Yesterday Morning

Lindsey C. Preston, 50, a resident of Gladstone for the past nine years, died suddenly of a heart attack yesterday morning at three o'clock. The attack came when Preston was taking a hot bath to relieve pleurisy pains at the Busy Bee lodging house. His moans aroused lodgers who went to his assistance and carried him to his room where he died a few moments later. He had been in ill health for several months.

Mr. Preston came to Gladstone from Lansing in 1923 to engage in the sale of bonds. Later he entered the automobile business, which he continued until late last year. During the past few months he has had charge of the South Gladstone filling station.

Little is known of his life previous to coming to this city. At one time he is reputed to have been a man of considerable wealth but ill health and business reverses wiped out his fortune. He was unmarried and has no known living relatives.

According to those with whom he associated, Preston was born near Philadelphia, Pa., where he lived until coming to Gladstone. He was a member of no fraternal organizations and was not affiliated with any church.

The body was taken to the Swenson mortuary, to be prepared for burial, but funeral arrangements are being deferred pending responses to telegrams sent to friends in the east.

Observe Arbor Day At Gladstone High

An Arbor Day program, featuring the Washington bi-centennial, was presented yesterday morning at the Gladstone Junior high assembly. The program was in conjunction with the state-wide observance of the day, scheduled to be held today in the lower peninsula and on May 6 in the upper peninsula.

The following program was presented:

Opening song—America, The Beautiful.

Remarks—C. C. Strickland.

Grandfather's Trees—James Colenso.

Where We Got the Story About George Washington and the Cherry Tree—Vernon Vanderberg.

Remarks—C. C. Strickland.

Readings from George Washington's Diaries—Fred Hoover, Ruth Warner, Myrtle Hawkinson, Helen Bjork and Ailene Flannery.

Story of the Washington Elm at Cambridge—Astrid Helman.

Under the Old Elm—Ruby Rasmussen.

Closing Song.

Gladstone And Escanaba Lodges In Joint Meetings

The degree team of the Escanaba Odd Fellows lodge gave the degree work at a meeting of the Gladstone lodge, I. O. O. F., on Tuesday night of this week and the Gladstone team will go to Escanaba Monday night to perform a similar service for that organization.

The Odd Fellows will also hold a joint meeting in Gladstone next Tuesday night in observance of the 115th anniversary of the founding of the lodge.

Grass Fire Season Opens Yesterday

The Gladstone fire department was called out twice yesterday to stop grass fires which were threatening valuable property. By use of the chemical engine the fires were gotten under control without property loss.

Chief A. F. Raddant of the department has issued a warning against starting fires without a permit, and points to the danger because of the extreme dry conditions.

I regard the refusal of standpat Democrats and Republicans to give relief to suffering people, after giving $2,000,000,000 in a dole to big business, as the most scandalous and indefensible preferring of money to human beings in my experience.

"Lost Squadron" Is Benefit Show

"The Lost Squadron," a movie within a movie, depicting the neck-breaking stunts of the film dare-devils in a thrilling modern day romance of the air and Hollywood, has been selected for the benefit show to be given next Tuesday and Wednesday at the Rialto Theatre by members of the Epworth League of the Methodist church. Richard Dix is starred in the picture and it is said to be his most romantic and dangerous role to date.

"The Lost Squadron" is the story of an air picture in the making. The gay panoply of Hollywood's great film industry is revealed most intimately. Great batteries of cameras fill the screen on occasion; a gala Hollywood premiere is shown and the mysterious sound stages are opened for the first time to public inspection.

The cast is in every respect equal to the subject matter. Supporting Dix are Mary Astor, Erick von Stroheim, Joel McCrea, Dorothy Jordan, Robert Armstrong, Hugh Herbert and others.

HEIR TO MILLIONS G. O. P. CHOICE

Big money made its appearance in the Illinois primary fight when James Simpson, jr., lower picture, Chicago business man and son of the president of Marshall Field and Co., won the Republican nomination in the tenth congressional district in Illinois. He defeated the incumbent, Congressman Carl R. Chindblom, for the nomination. Above is William H. Dieterich of Beardstown, Ill., who is the Democrats' choice for the senatorial seat now held by Senator Otis Glenn, Republican incumbent, who is in the race for re-election.

“Mother Knows Best”

. . . *does she?*

Guiding their inquiring minds and dynamic activities . . . choosing their food, entertainment and health needs . . . the well-informed modern mother *knows* what is best for the welfare of her offspring. And it is safe to say that an incalculable share of her accurate information has had its beginning in the advertising columns of this newspaper.

Many of the advertisements of today bristle with ideas. They are more than catalogs. In the true sense, they are education! Scientific minds contribute to their contents. Their recommendations are based on deep thought. Their words are carefully chosen; their diction studiously formed for clarity and understanding.

Through advertisements the mother of today learns authoritatively about new methods in the care of children’s teeth. About antiseptics and hygienics. About body-building and health-giving foods. About new comforts, as well as new styles, in juvenile wearing apparel. About books and schools and vacation camps. . . . The advertisements pour innumerable hints and suggestions into her store of knowledge. They make her a capable manager of the home and guardian of the family exchequer.

“Mother knows best”---is this expression heard about your home? Is it just an admonition? Or, is it founded on facts? Reading advertisements will help to make it so.

IMPORTANT---When you ask for a product by name, as a result of advertising, do not accept a substitute ---substitutes are offered not as a service to you, but for other reasons.

COMMENCEMENT SPEAKER NAMED

Dr. Robert Phillips Of Purdue to Deliver Address June 8

Dr. Robert Phillips, professor of history and political science at Purdue university, has accepted the invitation extended by the board of education to be the speaker at the high school commencement exercises to be held at the high school auditorium on the evening of Wednesday, June 8.

The baccalaureate sermon will be given Sunday evening, June 5, and the class day exercises will be held on Tuesday afternoon, June 7. No speaker has as yet been selected for the baccalaureate sermon. One of the largest classes in the history of the local high school is expected to be graduated, the class of '32 numbering 71 members.

Great Orator

Dr. Phillips is recognized as one of the foremost platform orators in the middle west. Last year he had the pleasure of speaking at 31 high school commencements throughout the states of Illinois and Indiana. He has also been in great demand as a speaker at various teacher institutes and in this capacity has lectured in Indiana, Michigan, Illinois, Wisconsin, Missouri, and Ohio. He possesses an excellent style of delivery and his addresses are rich in allegory. As a lecturer at Purdue university, each year Dr. Phillips draws nearly 1000 students.

In addition to being a speaker of wide renown, Dr. Phillips also is noted for his literary ability. He is the author of "The American Flag," "The Theory of the Political Party," and numerous magazine articles and printed addresses.

BANKS SOUND, PEOPLE TOLD

Businessmen Pledge 100 Percent Faith, Support To Institutions

One hundred and thirty-three business and professional men and women gathered at a mass meeting held last evening at the county court house and pledged 100 per cent their support and implicit confidence in local banks. The meeting was calld by Mayor Harry Eriksen to explain present bank conditions in Manistique and to secure confidence of the local people of the city's financial institutions. The meeting succeeded in gaining the complete trust of those present.

Leading business and professional men of the city told the assemblage that the city banks were entirely sound and that within ten days conditions would again be normal and that there was absolutely no reason for the citizens to show fear.

Bankers pointed out that depositors are entitled to know that no one will be permitted to withdraw funds except as used in the usual course of business when the First National and State Savings Banks reopen on Monday. The bankers asserted that there is plenty of money in reserve to care for all ordinary needs and the only danger is that which may be caused by unreasonable actions on the part of the depositors.

Business men who spoke to the assemblage included the following: James C. Wood, V. I. Hixcn, A. J. Cayia, Edward Sheahan, W. L. Middlebrook, Harry Eriksen, W. J. Stephens, Frank E. Lied, Walter L. Moon, W. B. Thomas, A. F. Hall, R. H. Wilson, G. S. Johnson, W. S. Crowe, W. J. Shinar.

BULL PEN WILL BE BUILT HERE

To Demonstrate Safety Structure in County Next Month

"The Agricultural Engineering and Dairy Departments of Michigan State Colege will build a demonstration safety bull pen in Scholcraft county during the month of May," announced County Agricultural Agent Stewart today.

Most dairy bulls are sent to the butcher when they are three to four years old. They are disposed of to avoid in-breeding, or because the animal is becoming difficult to handle. It is impossible for a bull to definitely prove his worth until his daughters come into production and passed through one lactation period. At that time he will be five to six years of age. A bull at this age still has several years of usefulness. Many good bulls have been sent to the butcher, and later their daughters have become outstanding producers. The dairymen then wishes he had his old bull back, however, it is too late.

A safety bull pen and breeding chute makes it possible to handle a bull without danger to the keeper until his daughters come into production. If they are found to be high producers the bull is still alive and useful. If the daughters are not outstanding, the bull can then be sent to market.

With the safety pen, too, a dairyman may safely trade one proven sire for another. This would not be advisable were it not for a good safe place in which to keep the new bull. The safety bull pen also allows the bull to exercise, thus maintaining his vitality, and prolongs his life of usefulness.

The demonstration pen will be placed on some farm in the county. If any farmer is interested in a safety bull pen for his sire, he should get in touch with County Agricultural Agent Stewart.

Officers Arrest 9 For Spearing Fish

Nine persons were arrested Wednesday evening by local conservation officers and fire wardens for spearing black bass and grass pike in Crooked Lake, east of Steuben. All pleaded guilty to the charge when arraigned yesterday morning in justice court and were fined $5.00 and $8.50 costs each. Two of the group were unable to pay the fines and were sentenced to the county jail for five days.

Those who pleaded guilty to the charge were Denver McBurney, Leo Dean, Wallace Dumond, Alec Creighton, Ludwig Hough, John Hruska, Jr., Howard Hause, Theodore Kiefer, all of this city, and Steve Byers of Hiawatha township.

Officers who made the arrests included Paul Knuth, local deputy conservation officer, and Frank Genereau, M. A. Williams, Ernest Edwards, Joe Thibault, fire wardens and towermen.

The season on spearing grass pike closed this year on February 29, while black bass, a game fish, cannot be speared at any time.

Presbyterian Guild To Have Spring Tea Saturday Afternoon

Elaborate preparations are being made for the annual Spring Tea of the Presbyterian Young Women's Guild which will be held in the church parlors Saturday afternoon from 3 to 5:30 o'clock. Decorations will be in spring motif consisting of spring flowers and colors.

The program committee, of which Mrs. A. F. Hall is chairman, has been fortunate in securing the services of the "Kentucky Crooners" as one of the stellar attractions. The public is cordially invited to attend.

Committees in charge are as follows: Program—Mrs. A. F. Hall, chairman; Mrs. R. H. Wilson, and Miss Helen Hulbert. Refreshment—Mrs. H. K. Peterson, chairman; Mrs. Stanley Clausen, Mrs. Chester Tyrrell, Mrs. Lee Stewart, and Mrs. E. R. Monroe.

Frank Fouchard Is Given Investigator Post On Commission

Frank Fouchard yesterday afternoon was appointed as full time investigator for the newly organized poor commission The appointment was made by W. L. Moon, H. Knaggs, and John Girvin, new members of the commission. Numerous applicants applied for the post. Mr. Fouchard formerly served as manager of the local Atlantic & Pacific Tea company store.

The new post came into being as the result of the reorganization of the commission following the resignation of two of the members. The duties of Mr. Fouchard will be to make investigations, issue orders, and otherwise do all relief work.

BY JOHN L. COOLEY
(Associated Press Financial Writer)

New York, April 21 (AP)—Stocks had their best rally in just a week today, moving steadily higher after a minor early setback, and closing with numerous net gains of 1 to 3 points in pivotal issues.

Easing money rates, both here and abroad, lent strength to bonds and doubtless had much to do with the improvement made by equities. Publication of the senate committee's list of shorts, which monopolized financial news wires during the afternoon, probably prompted some covering, although the market had been firming before it was known that the names were to be released.

Net recoveries by U. S. Steel, American Can, Westinghouse, Allied Chemical, Du Pont, Auburn, Consolidated Gas, North American, Santa Fe, Union Pacific, National Biscuit, Case and Public Service of New Jersey ranged from 1 to 2 points. American Telephone, with a gain of about 3, was well above par again. Coca Cola, Eastman, American Tobacco "B," Safeway Stores and Peoples Gas gained in the neighborhood of 3, while Delaware & Hudson jumped 7 and Norfolk & Western 6½.

Standard Oil of New Jersey, heavily sold in the forenoon, all but made up its drop of 1¼. Royal Dutch weakened here in sympathy with the break abroad, but halved a 2-point loss. Aside from that pair, however, there was no marked heaviness even during the early reaction and the list appeared to be heeding the signal recently displayed by rail issues. Rising prices brought little change in activity, for transactions amounted to only 1,106,130 shares.

After Liquidation In Early Trading, Curb Stocks Jump

New York, April 21 (AP)—After some restricted liquidation in early trading, the curb market took on a better tone today with a number of issues recording fairly substantial gains.

Trading was inclined to lag at one time, but in the latter part of the session activity broadened when supporting orders came into various utilities. The turnover approximated 150,000 shares compared with 130,000 yesterday.

Electric Bond and Share continued to hold the principal interest of traders, with the common advancing 1 and the preferred 2 points.

The oils displayed a resisting tendency following reports of a moderate reduction in the output of crude.

Assails Omission From Budget War Debts To America

London, April 20 (AP)—The omission from the British budget of any provision for war debt payment to the United States was assailed in the house of commons today by Major C. R. Attlee, speaking for the Labor opposition.

The chancellor of the exchequer, Neville Chamberlain, who presented the budget in parliament yesterday, apparently worked on the principle that he wouldn't have to make any American payment, the Labor member asserted.

"There is already a reminder from the United States that there is not the slightest chance of our getting any relief from that quarter," he continued, "therefore the chancellor hasn't really met the budget situation in this respect at all."

CHICAGO GRAIN
Chicago, April 21—Reports that $100,000,000 of finance reconstruction funds would be diverted to facilitate wheat and cotton exports had a bullish effect on grain prices today.

Another strengthening influence was an unofficial estimate that Kansas, Nebraska, Texas, Oklahoma and Colorado would produce only 189,000,000 bushels of wheat this season as against 444,000,000 in 1931 and 272,000,000 in a five year average, 1924 to 1928. Talk prevailed also that liquidating sales of May holdings of grain were about over, and that the wheat market would respond more readily to crop damage news in the future.

Wheat closed unsettled, 3-8 to 3-4 higher than yesterday's finish, corn 1-8 off to ¼ to 5-8 up, oats at 1-8 to ¼ advance, and provisions unchanged to a rise of 7 cents.

Corn and oats were helped upward by wheat strength, but during one dip September corn outdid this season's low price record. The seaboard noted a few loads of corn taken for export and shipping demand here showed some improvement.

Provisions tended to advance, responsive to some firmness in hog values.

Closing indemnities: Wheat—May, 56 5-8, 58 5-8 to 3-4; July, 59½ to 5-8, 61½ to 5-8; September, 61 7-8 to 62, 63 3-4. Corn—May, 32 1-8 to ¼, 32 3-4 to 7-8; July, 35½, 37 3-4 to 7-8; September, 38 3-8, offers.

New York, April 21 (AP)—The bond market stepped up another rung on the ladder of recovery today with securities of various categories recording fairly substantial gains.

Although trading was quiet most of the session, activity broadened in the final hour and sales reached a total of $14,768,000 par value. The average for 60 corporate loans advanced three-tenths of a point.

United States government bonds were again in demand on indications of further easy money conditions. The general tone of the federals was improved by a reduction in the bill rate, a cut in the Bank of England discount figure and the belief that the federal reserve would soon lower its rediscount rate.

he?" pursued Waring. "Where'd you meet him?"

She kept her fingers steady on the keys.

"At business school. He was taking the course—some whim of his father's. Yes. He's very nice."

"Very nice. Very nice." The futile, foolish words mocked her. As if she hadn't been dreaming of Robert Dunbar's image for months. As if every lineament of his splendid young face weren't burnt on her brain. Very nice, indeed!

She forced herself to say with desperate calm, "He's to be married, I believe?"

"I don't know about that," said Waring with infinite carelessness. "All the girls in that crowd are after him, I suppose. He has everything — money — looks — nice disposition. I've heard he's a bit wild." His voice dropped confidentially, "Now you would be exactly the sort of girl for that young man. You have brains and you're rather easy on the eyes yourself."

She moved her shoulders impatiently. Why couldn't the man leave? Her voice sounded heavy as lead as she answered. Susan said, "Ah, but you see, he doesn't want me."

She would have given a great deal to have the words back. In a panic she wondered if she had given herself away.

Tigers Beat Indians, 5-3; Cubs Defeat Reds, 3 to 2

DETROIT HOLDS FIRST POSITION

Vic Sorrell After Two Hard Luck Games Gets Breaks

Cleveland, April 21. (AP)—Making the best possible use of the six hits Mel Harder allowed, the Detroit Tigers made it two in a row over the Indians today, 5 to 3, and took undisputed possession of first place in the American league standings.

It was a pretty pitchers' duel between Harder and Vic Sorrell, the hard luck Tiger hurler who previously had pitched two fine games only to lose both on the breaks. Sorrell, who allowed the St. Louis Browns only three hits last Sunday and lost a 1 to 0 decision, yielded seven hits today—and won.

Four scoreless inning had passed today when the Tigers turned four hits into three runs and took a lead they never surrendered.

Score Three Runs

Rhiel singled to start the fifth and Rogell doubled, Rhiel stopping at third. Walker filled the bases by beating out a bunt. Then Hayworth scored Rhiel and Rogell with a sharp single to left, Walker holding second. Sorrell sacrificed. A passed ball let Walker score after Johnson had been purposely passed. Hayworth was cut down at the plate trying to score on Davis' bounder and Stone became the third casualty.

The Indians retrieved one run in their half on Myatt's double and Harder's single. In the seventh Walker's triple, his second hit of the day, and Hayworth's long fly brought in another Tiger tally. After Harder yielded to a pinch batsman in the eighth and Hildebrand took over the Indian mound burden, Rhiel walked to open the Tiger ninth. Rogell sacrificed him to second and he advanced to third on Hildebrand's fumble of Walker's grounder. Hayworth's long fly let the young third baseman score the final Tiger run.

A dying rally by the Indians in the ninth left them two runs short of a tie. Morgan was passed and took third on Vosmik's single. Kamm's double scored Morgan and put Vosmik on third, where he scored on Myatt's fly.

Box score:

Manistique Grid Warriors Start Spring Practice

Manistique, April 21 (Special)—Some thirty green clad football warriors out of which Coach Oscar Wassberg's 1932 grid machine must be molded are being put through various spring practice drills at the fairgrounds in preparation for the fall grind. Punting, passing, backfield shifts, and other fundamentals requiring coordination and timing are being administered in light doses. In order to preclude injuries, no scrimmage will be indulged in this spring, although some defensive work will be given.

Coach Wassberg

Faced with one of the most strenuous schedules ever outlined for a Manistique high school team, Coach Wassberg is seeking promising material out of a green array of prospective talent. Lack of weight seems to be the biggest drawback.

Stanley Norton and Harry Dewey are the only veteran linemen available this year, while the backfield veterans are Capt. Ekdahl, Rodgers and Peasley. Both wingmen, Dick Hudson and Wes Orr, will be lost by graduation as will Jack Orr and Bob Marks, halfbacks.

SCOZZA BEATEN BY ROSENBLOOM

Champion Evens Score In Flint With Buffalo Battler

Flint, Mich., April 21. (AP)—Maxie Rosenbloom, world's light heavyweight champion, evened a score with Lou Scozza of Buffalo tonight by administering a sound trouncing to win nine of the ten rounds and an easy decision in a non-title bout.

Except in the ninth round, which Scozzo won by a shade, Rosenbloom was too much for the Buffalo boy who had won two of their three previous encounters. Scozza had the New Yorker on the ropes on a futile rally in that round but could not deliver the knockout punch that alone would have overcome the heavy margin Rosenbloom had piled up by aggressive use of his punishing left fist.

Rosenbloom weighed 178 1-2; Scozza 176.

Jack O'Dowd, 207 1-4, Detroit; defeated Joe Doktor, 191 1-2, Buffalo, in a bruising eight round semi-final. O'Dowd was down for a nine-count in the fourth, but he recovered and sent Doktor to the canvas twice in the seventh.

Results of the other bouts: Harold Anderson, 170, Flint defeated Mickey Balaban, 169 1-2, Detroit, (6); Don McLeod, 135, Northville, Mich., defeated Fred Haverlock, 134 1-2, New York, (6); Bete Borges, 138 1-4, Flint, knocked out Joe Misko, 139 1-4, Saginaw, (2); Alex Heinz, 156 3-4, Saginaw, knocked out Sammy Waters, 154, Flint, (1).

Central State No Match for Spartans

East Lansing, Mich., April 21 (AP)—Michigan State's powerful batting attack overwhelmed Central State Teachers here this afternoon and the Spartans won their second baseball game of the season, 19 to 2.

State rapped three Teacher pitchers for seventeen hits including two triples by Abe Eliowitz, Spartan first baseman. Coach John Kobs used a lineup of twenty men including three pitchers.

BOAT DRIVERS ALL CLEARED

Charges of Unfair Tactics Dismissed by Association

New York, April 21 (AP)—The American Power Boat Association today completed its inquiry into the running of the Col. E. H. R. Green trophy outboard race at Miami Beach March 19-20 and cleared nine American drivers of charges of unfair tactics.

The charges were that several American drivers conspired to draw Charles H. Harrison, British entry, across the starting line ahead of the gun, and thus disqualify him so one of their number could win; also that the motor of Edmondo Turci, Italian entry, had been tampered with. Turci was unable to get his boat started in one of the heats. Harrison "jumped the gun" on the final heat and was disqualified while leading on points.

In announcing the incident closed George Townsend, A. P. B. A. president, said unfair competitive tactics had been practiced by a few drivers in some American races and their actions would be closely watched hereafter.

"Foreign drivers, when they honor us by their visits," Townsend said, "are going to be assured as square a deal as we expect them to give our pilots who enter foreign events. Drivers who act contrary to this principle will be driven permanently from the sport."

The nine drivers against whom the charges were made, were: Billy Crawford, Miami, winner of the Green trophy race; Tommy Estlick, Waukegan, Ill., holder of the world's outboard record of 56.71 miles an hour; Clarence (Red) Collins, Troy, N. Y.; Horace Tennes, Chicago; H. H. Libby, Kansas City, Mo.; Cal Leeth, Cullman, Ala.; Travis Chestnut, Jacksonville, Fla.; Guy P. Ellsworth, Durham, N. C.; and George Martin, South Bend, Ind.

Koenig Released By Detroit Tigers

Detroit, April 21 (AP)—The Detroit Tiger management today announced the unconditional release of Mark Koenig, veteran infielder and part time pitcher, to Toronto of the International League.

Koenig, who came to the Tigers midway in the 1930 season from the New York Yankees in the same deal which brought Waite Hoyt, will join Toronto probably Saturday in Baltimore.

A west coast product, Koenig broke into organized baseball with Moosejaw of the Western Canadian League in 1921. He played with Jamestown of the Dakota League; Des Moines of the Western League and St. Paul of the American Association before joining the Yankees in 1925.

WRESTLING

Detroit, April 21 (AP)—Jim Londos defended his claim to the heavyweight wrestling title tonight by throwing Gino Garibaldi of Italy with an aeroplane spin in thirty-six minutes. The Italian put up a terrific resistance, but after the fall had to be carried from the ring. Londos weighed 201 3-4 pounds; Garbaldi, 215.

Other results: Steve Zenoski, 215, Boston, threw Jack McCarthy, 215, Chicago, in 7:14, flying tackle; Kola Kwariani, 217, Russia, threw Paul Harper, 215, Texas, in 23:36; Hans Kamper, 230, Germany, and Pat Oshoker, 225, Ireland, drew in thirty minutes.

Capone Best-Known American In England

Lancaster, Pa., April 20, (AP)—Al Capone was declared to be the best-known American in England by Canon William Thompson Elliott, Vicar of Leeds, today. The clergyman, who is enroute to the Rotary International convention at Chicago, was a guest of the Lancaster club.

"The distortion of news received from the United States," said Canon Elliott, "constitutes a real point in relations between England and the United States.

"A man like Dr. Nicholas Murray Butler of Columbia University for instance, writes a thoroughly fine book and it gets a review of this length (indicating about two inches on his finger) in the London papers.

"But alongside of it is this much (holding his arm at full length) about Capone, or the Lindbergh kidnaping case or some other phase of racketeering."

Ellensburg copped the 1932 class A championship and Castle Rock won the class B title in the Washington state high school basketball tournament in which 32 teams competed.

RALLY BY A'S BEATS YANKEES

Cochrane Socks Homer In Ninth With Bases Loaded, Win 8 to 6

New York, April 21. (AP)—Just when the Yanks were beginning to wonder what manner of inertia had crept into their ancient foes, the Athletics, Mickey Cochrane today whaled out a home run with the bases full in the ninth inning, and the A's grabbed a ball game, 8 to 6.

Steaming steadily along, big Rufus Ruffing was mowed down in the same sort of a storm that engulfed the Cardinals in one of the memorable last ditch rallies of the A's in the 1930 world series.

Ruffing, holding the league champions to four hits in eight innings, although one was Al Simmons' circuit clout with a man on in the fourth, went into the ninth leading 6 to 2. But wildness that affected him all day took a hold after Lyn Larry messed up a grounder by Ed Coleman, pinch hitter batting for Mahaffey, for a two base error.

Big Rufus walked Jimmy Dykes and Mule Haas to fill the bases and Cochrane promptly hit a fast ball far over Babe Ruth's head into the right field bleachers. George Pipgras finished and allowed another score as Jimmy Foxx hit his second triple and counted on Bing Miller's long fly.

Urban Trombly of Rock Makes Good At North Dakota

Rock, Mich., April 21 (Special)—Word was received here from the University of North Dakota that Urban Trombly, former Little Giant grid star, is making an impressive showing in spring football practice here and is slated for a regular guard position next year.

Speaking of the various prospects, the Grand Forks Herald states: "Trombly, frosh of Rock, Mich., appears to be the outstanding guard. He weighs 190 pounds and was a sprinter in high school."

After the first scrimmage session of the season, the Herald said: "Coaches West and Starback were encouraged over the work of Trombly. The big guard was powerful in the defensive line."

Local fans know Trombly as one of the best football players, and all-around athlete, ever developed at Rock. He was captain of the 1930 eleven and was given honorable mention as center on the All-U. P. team of that year. He won his freshman numerals at North Dakota last fall. Incidentally, one of the outstanding players on the Nodak varsity is Eckholm, 228 pounds tackle from Iron Mountain. Eckholm, who is known to many U. P. football fans, is making a good showing in spring practices as fullback.

Johnson, another former Little Giant, was a grid prospect this spring but he was injured in one of the scrimmages and is through for the season. Rabideau who made a name for himself in greshman basketball at North Dakota this year, is a candidate for the track squad.

Grove Tells Why He Can't Subdue Ruth

BY GAYLE TALBOT
(Associated Press Sports Writer)

New York, April 21 (AP)—Robert Moses Grove settled back behind his long cigar today and discussed the Babe Ruth situation.

"No sir," he said, "there's no good way to pitch to that fellow. All you can do is breeze it in there and hope he doesn't connect. If he does it's likely as not to be a home run. He doesn't have to hit it square. Why, I've seen him knock them out of the lot with the handle."

Lefty Grove

The greatest southpaw in the game was paying a sincere tribute to the game's greatest slugger, the man who had done much the previous day to cost Grove his first defeat of the season.

Likes Crosetti

"That homer he hit off me yesterday was a fast ball, right down the groove. It just got away from me a little bit, and that was enough for the Babe. At that, though, it barely cleared the screen.

"But the Babe isn't the only one of those Yankees who can hit. They're all likely to hit one out of the lot any time they get hold of this "rabbit' ball our league is using. They seem stronger to me than they did last year. That new kid, Frank Crosetti, looks great at third base. Gomez pitched the best ball we've seen this year. He has a lot of speed."

Grove, usually conservative with his conversation, felt like talking things over.

"You know," he continued, "it's not so easy on us pitchers in this league. That lively ball travels and there isn't much use in a pitcher trying to win a game by himself these days. He's got to have a lot of hitting behind him. If he doesn't get it he's not going to win many games.

"Look at the games in our league. Most of them are running to high scores, but the pitchers are having all the best of it in the National."

It was suggested that he, Grove, would have himself a picnic with the other league's less explosive pellet. He grinned at the thought, but refrained from comment.

VINES DEFEATS INDOOR CHAMP

Shields, Allison, McCauliff Also Reach Semi-Finals

White Sulphur Springs, W. Va., April 21 (AP)—Ellsworth Vines and Frank X. Shields, members of the United States Davis Cup team, today joined their teammate, Wilmer Allison, and Eugene McCauliff of Yonkers, N. Y., in the semi-final round of the Mason and Dixon tennis championship.

Vines, playing brilliantly in spots, eliminated Gregory Mangin of Newark, N. J., the national indoor titleholder, 6-1, 6-8, 6-4, 6-2. Shields completely outclassed Marcel Rainville of Montreal, defeating the Canadian Davis Cup star in straight sets, 6-4, 6-1, 6-0.

Mrs. John Van Ryn defeated Baroness Maude Levi of Italy in straight sets to earn the right to meet Virginia Hilleary of Philadelphia in the finals of the women's championship. The score was 7-5, 6-3.

Pirates Win From Cards In Tenth, 7-6

Pittsburgh, April 21 (AP)—Lloyd Waner cracked out a double in the tenth inning today, scoring Grece and giving the Pittsburgh Pirates a 7 to 6 victory over the St. Louis Cards, in the second game of the series. St. Louis had deadlocked the game in the ninth by scoring two runs, on top of a three-run rally in the eighth.

Grace singled with one out in the tenth and when Martin fumbled the catcher went to second. With two out in the inning and Grace on second, Waner slapped his hit to left to end the game.

CHICAGO CLUB EVENS SERIES

Bruins Get Only 4 Hits But Make Them Very Effective

Chicago, April 21 (AP)—The Cubs made the most of little in the way of offense today to defeat Cincinnati 3 to 2 and square up the series.

Si Johnson held Chicago to four hits, but two walks, a sacrifice, an error and Bill Herman's single in the eighth, produced the winning runs. Bob Smith gave the Reds only five hits, but kept himself in trouble by walking five, hitting one and making a wild pitch.

QUALITY BUILT THIS COUNTRY . .

And quality will bring it back to the good old days of prosperity. Pride in fine hand crafted merchandise made the people of America conscious of true value in merchandise . . . not the price they paid but what they got for their money counted. Today there is a hysterical tendency toward cheap merchandise. Low price at any cost and to Hades with the quality. Think of what that has done to the workingman. Cheap things are made by machines that throw men out of work. Don't be fooled by the low price tag. Buy fine, known, quality, merchandise and you'll get something that will wear . . . and you'll put the backbone of America back to work.

Now about that . . . Hat

Some men dread buying a hat. It always seems such an ordeal to them. Well, our hat business is increasing because we know the hat business. We can determine the proper shape for your face and what is even better . . we carry enough different models and shapes to find your hat. And too . . we carry the finest hats in town.

KNOX . . . .

the standard of America now at a new low price **$5, $7, $10**

GORDON . . .
